## President's Message (Dr. Donald K T LI)

There were fireworks and champagne corks popped everywhere to welcome the arrival of the new millennium. However, it was a quiet year of consolidation for the development of family medicine. The green paper to be issued by the Health and Welfare Bureau to answer to recommendations of the Harvard Report on healthcare policies was delayed so we will have to continue to wait patiently for any breakthrough in resource allocation for family medicine training. With the increased intake of family medicine trainees in the past few years by the Hospital Authority, there need to be proper career planning to enable these qualified family doctors to serve the community in the most effective way.

Dedicated fellows of our College continue their hard work to upgrade the standards of general practice / family medicine in Hong Kong. In particular, it was a tremendous effort for members of the Primary Medical Care Certificate Committee members to complete their work in this first year having to fight off the criticisms and attacks of peers who felt threatened by this quality assurance exercise. The good intention of our College to offer a mechanism for doctors in Hong Kong providing primary care was misconstrued as a money making exercise and exhibition of superiority by those who did not appreciate self-improvement. Fortunately, others recognized the PMCCA as a worthwhile endeavor. Our local newspaper, the South China Morning Post made the launch of PMCCA headline news and an editorial applauded the College's efforts. Two papers on PMCCA presented at the WONCA meetings in New Zealand and Vienna in June this year attracted good comments as well.

We are delighted to see that despite resisting to participate in exercises that can demonstrate quality practice, primary care doctor groups such as the Hong Kong Doctor's Union as well as the Hong Kong Medical Association are now very much committed to continuing medical education (CME); something our College advocate for all practicing doctors. Nonetheless, continuous professional development or CPD involves more than CME. Our Quality Assurance and Accreditation Committee has made further advances this year. (Please refer to the other reports).

A few disgruntled fellows who were frustrated by the cessation of the Byelaw 16 of the Hong Kong Academy of Medicine voiced loud noises. We are sad to see such reaction amongst family members but have pursued to design methods to enable them to complete their training towards specialist status in Family Medicine. A structured part time training program has been submitted to the Education Committee of the Hong Kong Academy of Medicine. Hopefully this will grant more flexibility to family medicine training and make it more feasible for those who are already in full time practice.

For fellow Family Physicians and those committed to Family Medicine training, we have a lot to look forward to. The holistic care offered by Family Physicians is in demand and the public appreciates the comprehensive, continuous care offered by family physicians. Recognition leads to rewards. Some Medical Insurance companies are already offering higher reimbursements to specialists in Family Medicine.

Our College continues to maintain our international prominence by strengthening ties with

sister Colleges around the world. I am proud to report that I was elected a member of the WONCA Regional Council and Dr T P Lam, editor of our College journal has been nominated to be co-editor designate of the WONCA Regional journal to be launched in 2001.

At the conclusion of my first term as President of our College, I wish to thank all the members, fellows and Censors of our College as well as the Secretariat staff for their unfailing support and contribution to College work.

## Honorary Secretary report (Dr. IP Kit Kuen)

After the celebration of the millenium, the College continued to promote quality primary health care to the community. Primary medical care certificate assessment (PMCCA) was launched. Although not too many members participated, four members had passed the whole assessment and awarded this certificate. With recognition of the importance of family medicine, increased numbers of new graduates had joined our College as trainees in family medicine. To facilitate different kinds of education activities, our old College premises at Duke of Windsor Social Service Building was renovated, which could be a convenient meeting venue for the College activities.

In January, the WONCA Executive Council held a meeting in Hong Kong. The College Council had met with the WONCA Council members and exchanged ideas in promotion of family medicine. In June, the College represented by a team of delegates attended the WONCA Regional Asia-Pacific meeting at New Zealand. One of the important decisions was to publish a WONCA regional journal. Our Council member, Dr. Lam Tai Pong, was appointed the chief editor.

Continuous Medical Education (CME) and Continuous Professional Development (CPD) were recognized as important components of quality primary health care. After careful researches and discussions, our Quality Assurance & Accreditation (QA&A) Committee had defined the scopes of these activities. The College would award members the Certificate of the Quality Assurance if they fulfilled the requirements. Dr. K W Chan, Chairman of the QA&A Committee, had given us a detail explanation on quality assurance in his article, published in the January issue of our College journal.

In order to support the increasing demand of the CME and CPD activities, the Board of Education expanded with the formation of several new Subcommittees. Update lectures, clinical attachments, refresher course, and many other luncheon lectures provided numerous opportunities for members to up-keep their medical knowledge. It was wealth to highlight that with the support from the Hong Kong College of Physicians, the College organized the first Certificate Course in Internal Medicine. Members who participated a series of prescribed lectures and seminars, would be awarded this Certificate.

The Board of Examinations had been reorganized and re-named as the Board of Examination & Assessment. Under this Board, there were three Committees, namely, Conjoint Examination Committee, Exit Assessment Committee, Primary Medical Care Certificate Assessment (PMCCA) Committee. Under the present arrangement, each Committee would handle the

jobs related to the respective examination or assessment. The Board would streamline and coordinate matters related to these Committees.

The Board of Vocational Training and Standards (BVTS) was busy last year. The College had one hundred and seventy registered trainees. This was the largest number in our record and would be expected to increase. Apart from the conventional basic training, the College had begun to explore the possibility of part-time basic training. Our BVTS had been working very hard to formulate the structure of this brand new part-time course. This part-time training program would be submitted to the Hong Kong Academy of Medicine for formal approval. The College expected to implement this program in early year 2001.

Our College Journal, The Hong Kong Practitioner, continued to be one of the most popular journals within the region. New features, such as What's in the web for family physician, was added. The contents were tailored to meet the demands from our readers. Our members would find it indispensable for updating of medical knowledge as well as reference for revision of our professional examinations.

International Classification of Primary Care (ICPC-2) was an important disease classification code for research in primary care. Our College had commenced a project to produce a Chinese translation for this book. This project was made possible with the invaluable input from Dr. Gu Yuen, Head, Training Centre of General Practice, Capital University of Medical Sciences, Beijing; Dr. YT Wun (Member of Research Committee) and their team. The College had formally signed an agreement with World Organisation of Family Doctors to translate and produce this code. The translated version was expected to be available for distribution later this year.

This report focused a few of the achievements by our College in the past year. Members could refer to the reports of individual Boards and Committees for details. The College would like to take this opportunity to express our gratitude to all the parties, which had provided supports and assistance in the development of family medicine.

This year, in order to meet the growing needs and new challenges, the Board expanded with formation of five new subcommittees.

Assessment Enhancement Subcommittee organized her pioneer Distance Learning Course for Fellowship Examination to help members preparing for the Conjoint Fellowship Examination. This was the first comprehensive tutoring course organized by the Board.

Annual Update Subcommittee organized her first Dermatology Update this year, in addition to the popular ENT, Ophthalmology and Gynaecology Updates. The attendance of these updates was overwhelming. With continual support of sponsors, the subcommittee planned to organize more of these updates annually.

Likewise, Clinical Attachment Subcommittee organized her first clinical attachment course in Ophthalmology with the College of Ophthalmologists of Hong Kong. As in previous years, the subcommittee also organized clinical attachments for ENT, Paediatrics and Geriatrics at various hospitals. These clinical/bedside teachings provided precious chances for members to refresh their clinical skills.

Credit Point Subcommittee awarded CME and CPD points to all the educational activities solely or jointly organized by the Board.

Joint Education Subcommittee performed her onerous task to liaise with other specialties/ medical bodies for organizing joint educational activities. Besides the usual community programmes, she organized, with the Hong Kong College of Physicians, her first Certificate Course in Internal medicine for Family Physicians. The course ran throughout the year and was truly continuing and educational. The subcommittee solicited eminent family doctors as speakers representing the College in many of these conjoint activities. The Board deeply appreciated all these speakers as they contributed immensely to the building up of the specialist image of family physicians.

In addition to the new subcommittees mentioned, Refresher Course Subcommittee successfully organized her Annual Refresher Course again with an attendance rate over 150. Dr. Betty Kwan, Chairman of the Subcommittee, contributed greatly to arrange important educational topics and renowned speakers for our members.

With the unfailing support of our cardiology specialist, Dr. Cheng Chun Ho, CPR Subcommittee organized two workshops and examinations again this year. The subcommittee also organized an Instructor Training Workshop to maintain the standards of our instructors.

Our Small Groups grew steadily. At present, there were forty-two Small Groups registered

with the Board as compared to thirty-one last year. In line with the new requirement of CPD points for maintaining active fellowship this year, the subcommittee opened a flexible and alternate pathway for members to obtain CPD by encouraging individual Small Group to write and submit local clinical protocol for common diseases.

Last but not least, Video-cassette Viewing Subcommittee continued to arrange viewing sessions for members to obtain CME points at convenient times and venues.

In addition to above, the Board organized numerous full-house luncheon lectures throughout the year. Despite all we have done, we are far from being complacent. We hope to do better in the coming year. Finally, I would like to take this opportunity to thank Dr. Au Yeung, my indispensable deputy and all my colleagues in the Board who have dedicated their precious time and efforts to materialize many of our ideals. I must thank Dr. Donald Li and Dr. Ip Kit Kuen for their invaluable advice and support throughout the year. Lastly, I must thank all sister Colleges, Hospital colleagues, Department of Health, the two Universities and pharmaceutical sponsors for supporting our various educational activities.

A new layout of *The Hong Kong Practitioner* was introduced towards the end of last year. It had been well received by our readers.

A new column, *What's in the web for family physician*, was added early this year. This reflected the importance of information technology in the practice of medicine these days.

*HK Pract* continued to be one of the most popular medical journals in Hong Kong. Submissions of paper by authors of different specialties remained strong throughout the year.

As Editor, I wish to thank every member of the Board, the Editorial Advisers, those who contributed to the Journal and the College Secretariat for their unfailing support and hard work. I would also like to thank the authors for sharing with us their knowledge and expertise. To all companies that contributed unreservedly to *HK Pract* by their advertisements, goes a warm thank you for their support and generosity.

You may refer to the Honorary Treasurer's report for details.

I would like to take this opportunity to express my sincere thank to our Honorary Treasurer, Dr. Betty K M Kwan; our Auditor, Stephen Liu and Company; our Administrative Executive, Ms. Pinky Leung for their continuous support and services.

As in previous years, the Public Education Committee continues to provide public education on current health issues and disease prevention, and using such occasions to educate the public on the concept of Family Medicine. These include public lectures and exhibitions, interviews on radio and television, and providing education material through newspaper and magazines.

During the year, the Committee appeared in the mass media on 27 occasions, answering medical queries. Four public lectures were organized jointly with the Hong Kong Science Museum : "Atheroslerosis and Coronary Heart Disease (膽固醇與冠心病)" by Dr. Donald Li on 4th March 2000; "Epilepsy (認識癲癇症)" by Dr. Choi Kin on 1st April 2000; "Understanding Lipid and Stroke (中風因與果)" by Dr. Wong Hung Wai on 13th May 2000; "Diet-the Key to a Healthy Life (識飲識食保健康)" by Dr. Chan Kin Ling on 3rd June 2000.

This year, the Committee organized two health awareness programme : on influenza and on hepatitis B.

The public education programme on influenza includes the production of education leaflets and interviews on radio, and in newspapers and magazines. A press conference on influenza was held on 28th February, 2000

The hepatitis B awareness programme this year focused more on hepatitis B carriers and prevention of transmission. To increase the awareness among the younger generation, a "Hepatitis B Awareness" logo competition was held for secondary school students. Talks on hepatitis B were also held at different secondary schools. Public education pamphlets on hepatitis B (for hepatitis B carriers) were produced. The highlight of the campaign are the two "Hepatitis B Concern Day" held jointly with the Hong Kong Red Cross, and targeting at the

hepatitis B carriers. The events were held on 2nd April, 2000 and 17th September, 2000 respectively at the Hong Kong Convention and Exhibition Centre. The objective of the "Hepatitis B Concern Day" is to equip the public with full knowledge of the disease to prevent transmission, and to provide information on updated treatment modalities. The activities at the events include free blood checking and exhibition on hepatitis B, experience sharing, and a question-and-answer session by Professor Lai Ching Lung. Each occasion was well attended with over 1,800 participants.

On behalf of the Public Education Committee, I would like to thank all Committee members, and all doctors who had contributed to public education activities. It is through their continual effort that the public is now more aware of Family Medicine as a distinct discipline.

## QUALITY ASSURANCE AND ACCREDITATION (QA&A) COMMITTEE

**Committee Members :**
Dr. Fung Yuk Kwan (Vice Chairman), Dr. Paul Siu (Appeals and Complaints Investigation), Dr. Cheng Chor Ho (CME accreditation (Sister Colleges)), Dr. Wong Ka Wah (CME accreditation (Board of Education)), Dr. Chan Kin Ling (CME accreditation (Other Educational Activities)), Dr. Siu Ping Cheong (CPD: Inter-practice Visit), Dr. Dorothy To (CPD: Investigation Pattern), Dr. Fung Yuk Kwan (CPD: Referral Pattern), Dr. Lau Wai Keung (CPD: Prescription Pattern), Dr. Barry Bien (CPD: Disease Pattern), Dr. Hilary Ku (CPD: Preventive Care), Dr. Tsui Hing Sing (On line support), Dr. Liu Wing (Future Development), Dr. David Owens (Practice Computerization), Dr. Donald K T Li (Ex-officio), Dr. Wong Hung Wai (Ex-officio), Dr. Ip Kit Kuen (Ex-offico)

**Administrative Executive : Ms Alice Ting**

This was another busy year for the QA & A Committee, which had been restructured to meet the increased workload. Guidelines for credit point allocation to educational activities were laid down early at the beginning of the year. This ensures uniformity of point allocation among different category of educational activities and at the same time ensures credit points be given only to those good quality educational activities that meet the needs of GPs/FPs. Under the new scheme, the number of credit points awarded to individual educational activity tends to be lower than that of the previous years. To accommodate this, the QA&A committee had lowered the requirement for the award of the Certificate of Quality Assurance from 40 to 30 credit points per year, as the Committee believes in quality and not just quantity. At the same time, the Committee had introduced the component of Continuous Professional Development (CPD) into the requirement to promote self-directed active learning. In order to assist those who were new to the concept, the Committee produced very simple audit protocols on Inter-practice Visit, Investigation Pattern, Prescription Pattern and Referral Pattern to guide them into the exercise. Two lectures on Continuous Professional Development were also organized in November 27, 1999 and April 1, 2000 to promote the concept of active learning. At the same time, the Committee had liased with the Board of Education in identifying the attributes to good Practice Guidelines.

At the international level, our QA&A program is now under reciprocal recognition with the QA&CE program of Royal Australian College of General Practitioners.

In 1999, 185 members and 137 College fellows had completed the CME & QA program and were awarded the 1999 Certificate of Postgraduate Studies. Another 62 members had achieved the minimum requirement of 30 credit hours to maintain their names in the active list.

The HKAM triennium was launched in 1997 and 1999 was the final year of the triennium for most of the HKAM fellows. 103 AM fellows had completed the 1997-1999 triennium cycle. Of the two AM fellows who failed to complete the triennium cycle by the end of 1999, one had been recommended for the remedial program, while the other was under medical treatment overseas.

Fellows and members of the HKCFP must fulfill the requirements of the Certificate of Quality Assurance in order to maintain their active status. In addition, Fellows of the Hong Kong Academy of Medicine (Family Medicine) have to comply with the regulations set by the Hong Kong Academy of Medicine which are summarized under section 3.

## COMPUTER COMMITTEE
**Chairman : Dr. Daniel W S CHU**

**Committee Members :**
Dr. CHIU Chi Fai, Billy, Dr. CHOW Shun Wai, Dr. LAM King Hei, Dr. LAU Tai Wai, Stanley, Dr. LUK Kam Hung, Dr. David OWENS, Dr. Hans SCHRADER, Dr. Donald K T LI (Ex-officio), Dr. WONG Hung Wai (Ex-officio), Dr. IP Kit Kuen (Ex-officio), Dr. Betty K M KWAN (Ex-officio)

**Executive Manager : Ms Fanny Y F LAU**

In an ever changing environment of the IT world, it poses a strong challenge to Family Physicians to keep the pace of the development. This year the Computer Committee managed to recruit a number of very experienced doctors into the committee. The Computer Committee had sub-divided into 3 main areas :
1. Computer Maintenance
2. Future Development
3. Web-related Function

**Computer Maintenance**
Hardware had been stable over the last year with upgrade of 2 workstations to P-III machine. Overall some older machines faced problem of slow speed when dealing with program demand graphic function. The College had purchased a second server originally planned to cater the proposed change in membership program but now it had been changed to be a fax server.

We lost our valuable hardware support due to the re-structuring of the company. We had solicited Extended Computer to take up the role of computer hardware maintenance from August 2000.

**Future Development**
The upgrade of our membership program proved to be a failure and we terminated the contract in mid 2000. The program is under bidding process again.

**Web-related function**
We set up our domain name of 'hkcfp.org.hk' from December 1999 and are in the process of exploring possibility of migrating our college communication to this domain. If financial situation permitted each member may have an email account on his own.

In April we had asked a web company to review the College web page. The Web-related Subcommittee met in August and was in the process of a re-design of our present web-page.

## RESEARCH COMMITTEE
**Chairman : Dr. David V K Chao**

**Committee Members :**
Dr. Cecilia Y M Fan, Dr. Cheung Kit Ying, Andy, Dr. Cheong Shao Nean, Philip, Dr. Ho Kin Sang, Dr. Kwok Memie, Dr. Lau Ho Lim, Dr. Lau Kwan Chung, Jonathan, Dr. Lee Kai Yuen, Dr. Ng Pui Yam, Dr. Siu Ping Cheong, Dr. Tang Jin Ling, Dr. Tang Shao Fen, Joyce, Dr. Tse Yuen Yee, Eileen, Dr. Wun Yuk Tsan, Dr. Donald K T Li (Ex-officio), Dr. Wong Hung Wai (Ex-officio), Dr. Ip Kit Kuen (Ex-officio),

**Honorary Advisors :** Professor Tony Dixon, Professor James Dickinson

**Administrative Executive : Ms Alice Ting**

A few of our previous Research Committee members had retired from service this year, namely Drs. Kitty Chan, Chan King Hong and Luke Tsang. The Committee would like to thank them for their invaluable contributions over the last few years. At the same time, a heartful welcome went to all the new incoming members of the Research Committee, namely : Drs. Cheung Kit Ying, Andy, Lau Ho Lim, Ng Pui Yam, Tang Jin Ling , and Tse Yuen Yee, Eileen. We were very grateful towards Professors Tony Dixon and Jim Dickinson both of whom would continue to be the honorary advisors for the Committee this year.

The printing of ICPC-2 Chinese version had been making good progress. An official agreement on the copyright of ICPC-2 Chinese version would be signed between WONCA and the HKCFP this year.

The Research Committee had organized two seminars for the benefits of the College members in conjunction with the Hospital Authority of Hong Kong this year. The first one was entitled "Practice-based Research" delivered by Dr. Clarke Munro who was the Head of General Practice Unit, Hong Kong University from 1988 - 1991. Dr. Munro was an Honorary Fellow of the HKCFP and was the Dr. Sun Yat Sen Orator for this year's Conjoint Fellowship conferment ceremony. Dr. Munro went through the fundamental principles of practice-based research during the seminar. The second seminar was entitled "Dermatological Research and Dermatology Quiz" delivered by Dr. Raymond Yu who is Consultant Dermatologist of the University College London and Middlesex Hospitals, London, UK. Dr. Yu presented research topics on dermatological cancers and a very interesting collection of slides on skin problems. Both seminars were very well attended.

The Committee in collaboration with the Department of Community and Family Medicine, the Chinese University of Hong Kong carried out a questionnaire survey on the use of hypercholesterolaemia management guidelines amongst primary care doctors and a further project on the management of hypercholesterolaemia is in progress. Results of these studies would be expected to be available in the near future. The possibilities of other collaborations were being explored.

## REPORT OF THE AUDITORS TO THE MEMBERS OF HKCFP FOUNDATION FUND
## (Incorporated in Hong Kong and limited by guarantee)

We have audited the financial statements on pages 80 to 86 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

### Respective Responsibilities of Executive Board Members and Auditors

The Companies Ordinance requires the Executive Board Members to prepare financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is our responsibility to form an independent opinion, based on our audit, on those statements and to report our opinion to you.

### Basis of Opinion

We conducted our audit in accordance with Statements of Auditing Standards issued by the Hong Kong Society of Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Executive Board Members in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Foundation's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements. We believe that our audit provides a reasonable basis for our opinion.

### Opinion

In our opinion the financial statements give a true and fair view, in all material respects, of the state of the Foundation's affairs as at 31 March, 2000 and of its surplus for the year then ended and have been properly prepared in accordance with the Companies Ordinance.
