HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Organizing Committee 2017

Co-Chairmen:	Dr. NG	Lorna
	Dr. WONG	Chi Wai, William
Panel of Advisors:	Dr. CHAN	Ming Wai, Angus
	Dr. CHAO	Vai Kiong, David
	Dr. FOO	Kam So, Stephen
	Prof. GUO	Ai Min
	Dr. LAU	Ho Lim
	Prof. ZHU	Shan Zhu
Business Manager:	Dr. CHIU	Chi Fai, Billy
Scientific Subcommittee-		
- Scientific Subcommittee Co-Chairmen:	Dr. NG	Lorna
	Prof. WONG	Chi Sang, Martin
- Scientific Subcommittee Vice-Chairman:	Dr. CHIANG	Lap Kin
- Scientific Subcommittee Member:	Dr. CHEN	Xiao Rui, Catherine
	Dr. CHIN	Weng Yee
	Dr. FUNG	Siu Cheung, Colman
	Dr. SIT	Wing Shan, Regina
Publication Subcommittee-		
- Publication Coordinators:	Dr. CHENG	Ghar Yee, Judy
	Dr. LEUNG	Cheuk Wing, Vienna
	Dr. LO	Sze Mon, Dana
- Publication Subcommittee Members:	Dr. AU	Tai Kwan, Eva
	Dr. CHENG	Hei Wan, Lian
	Dr. TSIM	Koon Lan, Kathy
Competition Coordinators-		
- Clinical Case Presentation Competition Coordinators:	Dr. FOO	Bong Yin, Kevin
	Dr. KWAN	Yu
- Poster Presentation Coordinator:	Dr. KWAN	Wing Yan, Wendy
Nurse Planners:	Ms. CHONG	Yuen Chun, Samantha
	Ms. LAM	Choi Hing, Margaret
Allied Health Planner:	Mr. FUNG	Chun Wai, Lawrence
Member:	Dr. SZE	Pui Ka, Catherine

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Scientific Programme at-a-glance

2 September 2017 (Saturday)										
09:00 - 09:45	Conference Registration from 8:15am onwards @ G/F, HKAM Lunch / Dinner Symposium Registration @ 1/F, HKAM	Session 1 "Animal-assisted Therapy to Enhance Physical Well-being of Elderly"		Session 4 Using Humor in Positive Psychology <small>*Conducted in Putonghua 此項目將以普通話進行</small>		MORNING SESSION				
09:45 - 10:30		Session 2 "Innovative Inter-generational Health Promotion Program Incorporating Strength-based Life Review Interview for Elderly People with Chronic Diseases"		Session 5 Enhance Mental Health of the Elderly: The Effectiveness of Instrumental Reminiscence Intervention <small>*Conducted in Putonghua 此項目將以普通話進行</small>						
10:30 - 11:00		Coffee Break								
11:00 - 12:30		Session 3 "Radio-I-Care" Case Study of Offline Brief Counselling Sessions and Online Intervention to Promote Mental Health in Community		Session 6 (1) Current Status and Future Prospects of Primary Health Care in Mainland China (2) Reasons for Encounter and Health Problems Managed by General Practitioners in Rural Areas of Beijing, China: a Cross-Sectional Study <small>*Conducted in Putonghua 此項目將以普通話進行</small>		AFTERNOON SESSION				
12:30 - 14:00		Lunch Symposium								
14:00 - 14:30		Welcome Drinks								
14:30 - 14:55		Opening Ceremony								
14:55 - 15:30		Plenary I (Prof. Amanda HOWE) Future Developments in Medical Education – Can Family Medicine Make a Global Impact?								
15:30 - 16:05		Plenary II (Prof. Joseph SUNG) If SARS Hits Again...! – What Medical Professions should Learn								
16:05 - 16:40		HKCFP 40th Anniversary Highlights								
16:40 - 17:00	Coffee Break and Poster Presentation - Part 1[#]									
17:00 - 18:30	Workshop 1 Myofascial Therapy	Seminar A Management of Injury on Duty	Discussion Forum Postgraduate Vocational Training in Family Medicine	Workshop 2 (Part I) Practical Dermatology Part 1 Clinical Application of Botulinum Toxin A and Update in Skin Wellness						
18:30 - 21:00	Dinner Symposium									
3 September 2017 (Sunday)										
09:00 - 10:15	Conference Registration from 8:15am onwards @ G/F, HKAM Lunch Symposium Registration @ 1/F, HKAM	Workshop 3^{**} Knee Pain and Lower Limb Biomechanics		Seminar C (1) Helping Children Develop Skills To Regulate Uncomfortable Emotions - What Family Doctors Can Do? (2) Young And Alcohol Free – The Why And How For Family Doctors		Free Paper - Oral Presentation Part 1[#]	Clinical Case Presentation Competition		MORNING SESSION	
10:15 - 10:35		Coffee Break and Poster Presentation - Part 2[#]								
10:35 - 11:50		Workshop 3^{**} Knee Pain and Lower Limb Biomechanics		Free Paper - Oral Presentation Part 2[#]		Seminar D Update on COPD screening		Forum Theater Medical Humanities <small>*Conducted in Cantonese 此項目將以廣東話進行</small>		
11:50 - 12:25		Plenary III (Prof. Donald LI) Family Medicine Beyond 40 Years								AFTERNOON SESSION
12:25 - 13:00		Plenary IV (Prof. YU Xiao Song) A Study on the Integrated Health Management Service Model Based on Continuous Service of General Practitioners (基於全科醫生連續性服務的整合式健康管理服務模式的研究) <small>*Conducted in Putonghua 此項目將以普通話進行</small>								
13:00 - 14:40		Prize Presentation & Lunch Symposium								
14:40 - 16:10		Workshop 2 (Part II) Practical Dermatology Part 2 (1) Dermoscopy: a Practical Approach (2) Managing Atopic Dermatitis in Infants and Children		Workshop 4 Developmental Perspective of Personality Disorders: Implication for Family Doctors		Clinical Audit & Research Forum		Seminar B Introduction to Cost Effectiveness Analysis in Primary Care		

Active CME/CPD points will be accredited to presenters. ** Workshop 3 - Contents of both sessions are the same.

Disclaimer

Whilst every attempt will be made to ensure all aspects of the conference mentioned will take place as scheduled, the Organizing Committee reserves the right to make changes to the programme without notice as and when deemed necessary prior to the Conference.

<p>➤ Tropical Cyclone Warning Signal No.8 or above is hoisted / Rainstorm Black Warning is issued while activity is in progress</p>	<p>Conference will be suspended if circumstances allow*. <i>(The Organizing Committee may also consider cancelling the conference upon special circumstances.)</i></p>

In case of cancellation of conference,

- Conference’s Registration fees: Non-refundable and Non-transferrable
- Workshop’s Registration fees: Fully refunded to registrants

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Updates on Conference

Workshops

Following the opening of workshops' registration since February, we've received overwhelming responses to our workshops! We thank you for your tremendous support!

If you have not yet registered, reserve your seat by returning your registration form to us RIGHT NOW! Please visit our website for further details about our workshops http://www.hkcfp.org.hk/pages_4_68.html. Seats are expected to go fast as our workshops are one of the most popular highlights in the conference programme!

2 September 2017 (Saturday)

Workshop 1 (17:00 - 18:30)

Myofascial Therapy

Workshop 2 (Part I) (17:00 - 18:30)

Practical Dermatology Part I -

Clinical Application of Botulinum Toxin A and Update in Skin Wellness

3 September 2017 (Sunday)

Workshop 2 (Part II) (14:40 - 16:10)

Practical Dermatology Part II -

(1) Dermoscopy: a Practical Approach (2) Managing Atopic Dermatitis in Infants and Children

Workshop 3 (09:00 - 10:15; 10:35 - 11:50)

Knee Pain and Lower Limb Biomechanics

Workshop 4 (14:40 - 16:10)

Developmental Perspective of Personality Disorders: Implication for Family Doctors

Complimentary Transportation

We are pleased to announce the arrangement of complimentary transportation on behalf of the HKCFP 40th Anniversary Celebration Organising Committee. There will be complimentary transportation for participants with details as follows. Pre-registration for transportation is required.

Date	Origin	Destination	Time
2 September (Sat)	Wong Chuk Hang MTR	HKAM Jockey Club Building	8:30 - 9:00 [^] / 13:30 - 14:30 [^]
	HKAM Jockey Club Building	Wong Chuk Hang MTR	21:15
3 September (Sun)	Wong Chuk Hang MTR	HKAM Jockey Club Building	8:30 - 9:00 [^]

[^] Circular coach service would be provided within the mentioned periods.

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Saturday Morning Session 2

Innovative Inter-generational Health Promotion Program Incorporating Strength-based Life Review Interview for Elderly People with Chronic Diseases

Dr. Lorna Ng

Dr Lorna Ng is Council member of HKCFP and Co-Chairman of HKCFP 40th Anniversary Conference Organizing Committee. She is currently the Senior Medical Officer in-charge of Kwong Wah Hospital Family Medicine and Out-Patient Department, and Honorary Clinical Associate Professor of Jockey Club School of Public Health and Primary Care, CUHK. Having attained MRCP (UK) in Internal Medicine, she is also a HKAM FM specialist, Master in Public Health (CUHK) and Master in Social Sciences in Counselling (HKU). She is the founding and current president of Hong Kong Primary Care for Chronic Disease Association (HKPCCDA). Using HKPCCDA as a platform, she has organized several innovative and meaningful programs in collaboration with multi-disciplinary professionals and multi-sectoral organizations in engaging the community towards better health. One of these programs is “Healthy Buddies – Youth and Seniors” which is an innovative health promotion model benefitting across generations with recent successful bid for funding under HKSAR Food and Health Bureau - Health Care and Promotion Scheme.

“Healthy Buddies” is a community and school based health promotion program, that uses an innovative teaching model by partnering youth with elderly patients with chronic diseases and focuses on encouraging healthy attitudes and behaviors in three key areas of health namely physical activity, healthy diet and mental wellness. There is abundant evidence showing that patients with chronic medical illness are at particularly high risk for mental disorders. As studies have shown that life review interview is effective in enhancing positive mental-wellbeing in elderly, it could also be incorporated with positive psychology concepts dealing with human’s positive aspect through the development of personal strengths and virtues.

This presentation will walk the participants through the innovative aspects of this health promotion model and highlight the unique features of the program. The aim of this study was to evaluate whether this program could enhance physical psychosocial well-being and positive cross-generational perspectives in both elderly and youth. A total of 75 elderly patients and 118 secondary school students have joined the program since 2015. Post-evaluation surveys showed increased in self-esteem and mental wellness especially in the elderly. Both groups also improved in their healthy behaviors with eating more vegetables, fruits and increased physical activity. The cross-generational perception of the elderly towards the young and vice-versa were markedly improved. Qualitative evaluation also showed better cross-generational understanding and appreciation besides healthy lifestyle and chronic disease prevention awareness. This innovative model of health promotion program benefitting both seniors and youth highlights the evolving concept of a healthy, flourishing and age-friendly community.

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Saturday Morning Session 4 (**Conducted in Putonghua*)

Using Humour in Positive Psychology

Dr. Yue Xiaodong

BA, English language & Literature Beijing Second Foreign Languages Institute (1982)
MA, Educational Psychology, Tufts University, Medford MA USA (1987)
Ed.D, Human Development & Psychology, Harvard University Cambridge MA USA (1999)
R.Psych (Counselling Division, Hong Kong Psychological Society) - founding Chair.
Associate Professor Department of Applied Social Sciences. City University of Hong Kong (since 1997).
Assistant Dean of Graduate School of Studies, City University of Hong Kong.
Assistant Dean (Mainland Programme Development) Chow Yei Ching School of Graduate Studies.

Humour is a virtual character for optimal humour functioning. It is among the 24 character strengths outlined by positive psychology and has been heavily studied and practiced in Western society. In Chinese society, however, it is rarely studied.

Over the past 10 years, Dr Yue has conducted programmatic studies to examine the relationship between humour, subjective happiness, and various dispositional factors in China and Hong Kong. A combination of experimental, survey, and ethnographic methods was used to examine how humour was reflected/affected by the above factors.

Findings showed that Chinese students all thought highly of humour but lowly of their own humour potential, and that positive humour promoted one's mental well-being and social relationships while bad humour jeopardized both. Students in China used more affiliative humour and less aggressive humour than their Hong Kong counterparts. Above all, humour did not correlate with creativity, particularly for Hong Kong students.

In this presentation, Dr Yue will give a cultural analysis of the above findings. He will also discuss other related studies that uses humour in everyday life to cope with stress among teachers, nurses, business executives, and the like.

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Workshop 2 (Part I)

Clinical Application of Botulinum Toxin A and Update in Skin Wellness

Dr. Kingsley Chan

MBBS(HK), MRCP(UK), FHKCP, FHKAM(Medicine), FRCP(Glasg), FRCP(Edin)

Dr Kingsley Chan is a specialist in Dermatology and Venereology. He received his training in the department of medicine, Queen Mary Hospital, Social Hygiene Service of the Department of Health, as well as overseas training in St John's Institute of Dermatology, Guys' & St. Thomas' Hospital in London before pursuing private practice. Academic wise, Dr Chan is currently the Honorary Clinical Assistant Professor of the Department of Medicine and Therapeutics of the Chinese University of Hong Kong, Honorary Consultant Dermatologist of Kowloon Central cluster of the Hong Kong Hospital Authority. Dr Chan is the author of the book "101 Cases of Skin Disorder". In terms of public services, he is the Council member of the Hong Kong Medical Association and The Federation of Medical Societies of Hong Kong.

Botulinum toxin (BTX) is a neurotoxic protein produced by the bacterium *Clostridium botulinum* and related species. It prevents the release of the neurotransmitter acetylcholine from axon endings at the neuromuscular junction, causing a chemical denervation of targeted muscles. BTX type A is used in medicine to treat various muscle spasms and diseases characterized by overactive muscle. It received Food and Drug Administration (FDA) approval for the therapeutic treatment of strabismus and blepharospasm in 1989, cervical dystonia in 2000 and cosmetic treatment of glabellar wrinkles in 2002.

Understanding the underlying facial anatomy is critical to decrease the chance of complication and to maximize the cosmetic outcome. The possible complications of Botulinum Toxin injection include ptosis, diplopia, asymmetry of face, etc. With proper use, the incidence of complication is usually low and generally mild and temporary.

Skin is the largest and fastest-growing organ in our body. Skin changes are among the most visible signs of aging. Evidence of increasing age includes wrinkles and sagging skin. General measures, such as adequate hydration, balanced diet and sufficient sun protection, are important for skin wellness. With the advancement of technology, laser and mono-polar radiofrequency can be used to stimulate collagen re-modelling, leading to skin tightening.

The workshop provides an evidence based review of the clinical applications of Botulinum Toxin Injection and mono-polar radiofrequency and the scientific basis for their safety and efficacy. Structural and functional anatomy, dosing strategies of the toxin, treatment techniques and the possible adverse effects will also be discussed. The workshop will guide you through the better understanding of the toxin and the radiofrequency for more natural and optimal results for the patients with lower chance of complications.

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Seminar C

Helping Children Develop Skills To Regulate Uncomfortable Emotions –What Family Doctors Can Do?

Ms. Rosa ching-wai LEE

*Clinical Psychologist, Student Health Service, Department of Health, HKSAR
Associate Fellow & Council Member, The Hong Kong Psychological Society
Program for the Education and Enrichment of Relational Skills (PEERS@) Certified Service Provider,
Semel Institute for Neuroscience and Human Behavior, University of California, Los Angeles*

Ms. Rosa Lee is the co-author of the books “回到開心時：情緒管理 D.I.Y.” and “抑鬱自療”. She has also written articles on various mental health related topics. She is a professional volunteer of the Hong Kong Red Cross Society, and a member of the advisory team of Christian mental health professionals of the Hong Kong Doulos Ministry Centre.

Being effective in regulating uncomfortable emotions, including the emotions that arise in response to stress, is both a sign of and explanation for adaptive psychosocial functioning. Studies in emotion regulation indicate negative ramifications for children who lack these skills.

Children with poor emotion regulation skills are found to be more likely to display defiant or aggressive behaviours. They have a higher chance of having difficulties with forming meaningful relationships with others. It is important for parents and healthcare professionals to be alert to the various signs that a child may be at risk for emotion regulatory difficulties. Healthcare professionals play an important role in educating and advising parents of the need and skills to assist their children in developing intrinsic and extrinsic strategies of emotion regulation.

Young and alcohol free — the why and how for Family Doctors

Dr. Karen Ka-yin LEE

*Senior Medical Officer (Disease Prevention), Centre for Health Protection, Department of Health, HKSAR
MBChB (CUHK), MPH(CUHK), MSc(Health & Hospital Management)(Birmingham), FHKCCM,
FHKAM(Community Medicine)*

Dr. Karen LEE is a specialist in Public Health Medicine. She is currently working in the Non-communicable Disease Division of the Centre for Health Protection focusing on surveillance and risk communication of behavioural risk factors related to major non-communicable diseases.

Underage drinking is a public health concern. Alcohol drinking is particularly harmful to a child’s brain development. Early initiation of drinking is an important risk factor for alcohol dependency and various alcohol-related chronic diseases later in life. Parents and children may have misbeliefs in the “benefits” of alcohol consumption and its early initiation. Family doctors have a unique role in influencing parents’ and children’s behaviour with regard to alcohol use. Yet, a survey showed that very few doctors (9.2%) would have a habit of asking their patients about their alcohol history or record this in their clinical notes. Only 14.3% of them would advise their patients to drink less. About 35% of doctors feel inadequately equipped to advise their patients to stop drinking.

The Department of Health has developed health education materials, guidelines for proper screening and brief interventions to facilitate primary care professionals to identify and manage at-risk drinkers by reducing alcohol-related harm, within the context of Hong Kong.

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

HKCFP 40th Anniversary Highlights

Dr. Angus Chan

*MBChB (Glasgow), MRCP (UK), FHKAM (FM)
President of Hong Kong College of Family Physicians*

Dr. Angus Chan, President of the Hong Kong College of Family Physicians, graduated from the University of Glasgow, UK. He had extensive Family Medicine training in Hong Kong and UK. He was awarded the Fellowship of Hong Kong Academy of Medicine in 2001.

Dr Chan was the Chairman of the Specialty Board for Exit Examination from 2007 to 2010, Vice President (Education and Examination) from 2011 to 2014. He is the clinical supervisor for Family Medicine trainee in community training and is the Honorary Clinical Associate Professor, Department of Family Medicine and Primary Care, The University of Hong Kong. He is now working in private group practice and is the Medical Director of a renowned medical group.

Dr. Stephen Foo

*MBBS, FHKCFP (Hon), FRACGP (Hon), FAFPM (Hon), FHKAM(FM)
Censor of Hong Kong College of Family Physicians*

Dr. Foo is a Specialist in Family Medicine in private practice, Adjunct Associate Professor in Family Medicine at Chinese University of Hong Kong, Honorary Clinical Associate Professor in Department of Family Medicine and Primary Care at the Hong Kong University. He is also Censor of the Hong Kong College of Family Physicians, Course Director of the Diploma of Family Medicine of the Hong Kong College of Family Physicians. He was previously part-time Consultant, Clinical Supervisor and Trainer in Family Medicine for the Hospital Authority and past president of the HKCFP from 1992-1998.

This year marks the 40th Anniversary of the Hong Kong College of Family Physicians. Over the past four decades, our College has transformed from its humble beginnings as a small association consisting of a group of dedicated general practitioners into an internationally recognized and professionally accredited academic College with standardized basic and higher vocational training programmes, various levels of professional examinations and more than seven hundred College fellows. Our President, Dr. Angus Chan and our past president Dr. Stephen Foo will walk us through important milestones in the growth and establishment of our College.

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Forum Theater of Medical Humanities – Doctors Burnout

醫學人文論壇劇場之「燃竭好醫生」

(to be conducted in Cantonese)

Script writer and moderator:

Dr Dana Lo, Senior Medical Officer, University Health Service, The Hong Kong Polytechnic University

Performed by:

CUHK Medegg's Production

Abstract:

When caught by the unexpected grave news of patient, the passion doctor found himself shattered and demoralized.

Is the fire of our professional calling still burning?

Forum theater, goes beyond a “forum” and a “theater”, would ignite our reflection on medical humanities and burnout doctors.

Special Guests:

Professor Donald Li, President Elect, WONCA

Professor Paul Lai, Director, Office of Medical Education, The Chinese University of Hong Kong

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Discussion Forum - **Postgraduate Vocational Training in Family Medicine**

The Organizing Committee is honored by the presence of experts from different parts of the world to share best practice in family medicine/general practice postgraduate vocational training in order to advance the discipline of family medicine in our HKCFP 40th Anniversary Conference 2017.

The discussion panel consists of five leaders in medical education from the United Kingdom, Australia, Canada, Mainland China and Hong Kong. Each panel speaker will give a short presentation on the current Family medicine/general practice vocational training programme in his/her region, including the curriculum, assessment method, expected competency level on completion of training, provision for higher training /additional qualification after the standard residency or membership/fellowship training, and possible enhancement in duration or content. The presentations will be followed by an open discussion among the panel speakers and the floor.

The Discussion Forum will be chaired by Prof. Cindy Lam, Chief Censor, HKCFP.

Professor Cindy L. K. LAM, JP

*Danny D.B. Ho Professor in Family Medicine, The University of Hong Kong
MBBS(HK) MD(HK) FHKAM(Family Medicine) FRCGP*

Professor Cindy Lam JP, is the Danny D. B. Ho Professor in Family Medicine and Head of the Department of Family Medicine and Primary Care of the University of Hong Kong. She is a specialist in Family Medicine. She is Chief Censor and Honorary Fellow of the Hong Kong College of Family Physicians. Her public services include being a Co-Chair of the Grant Review Board of the Health and Medical Research Fund, and the Chairperson of the Advisory Committee on Primary Care Directory.

HKCFP 40th ANNIVERSARY CONFERENCE

“From Seedling to Forest - Ever Enriching Primary Care”

2 - 3 September 2017 (Saturday - Sunday)

Professor Amanda Howe, O.B.E.

MA MEd MD FRCGP

Amanda Howe, President of the World Organization of Family Doctors is a practising family doctor, an academic professor, and a national and international leader in family medicine. Since 2001, she has been Professor of Primary Care at the University of East Anglia, where she was part of the founding team for a new undergraduate medical programme. During her career, she has held multiple roles in undergraduate, postgraduate, and faculty education, including being Course Director for the UEA medical programme during its early years of development and G.M.C. accreditation.

Prof. Zhu Shan Zhu

Prof. Zhu is the Director of General Practice Faculty of Shanghai Medical Institute Fudan University, ex-Chair of General Practice Section of Chinese Medical Association, Honorary Chair of General Practice Section of Shanghai Medical Society and Director of Regional GP Faculty Training Demonstration Center, member at large of WONCA Asia Pacific Region. She is also Honorary Professor of University of Nebraska Medical Center and Chief editor of Chinese Journal of General Practitioners. She has also served as the Editorial Chair of many GP textbooks authorized by Chinese Ministry of Health and has been engaging herself in GP education and GP training for a long time.

Dr. Bastian M Seidel

*MBBS, PhD, MACHI, MRCGP, FRACGP
RACGP President*

Dr Bastian Seidel is the President of the Royal Australian College of General Practitioners (RACGP). Bastian is a partner and co-owner of a rural general practice in Tasmania's Huon Valley, South West of Hobart. Bastian studied medicine in Germany and South Africa and completed his vocational training as a GP in the United Kingdom in 2006. Bastian has been a supervisor for GP registrars and an RACGP examiner since 2007. He is a Clinical Professor at the University of Tasmania and Director of the National Asthma Council.

Dr. Angus Chan

*MBChB (Glasgow), MRCGP (UK), FHKAM (FM)
President of Hong Kong College of Family Physicians*

Dr. Chan, President of HKCFP, graduated from the University of Glasgow, UK. He had extensive Family Medicine training in Hong Kong and UK. He was awarded the Fellowship of Hong Kong Academy of Medicine in 2001. Dr. Chan was the Chairman of the Specialty Board for the College Exit Examination from 2007 to 2010 and is the Honorary Clinical Associate Professor of the University of Hong Kong.

Dr. Victor Ng

MSc MD CCFP(EM) MHPE

Dr. Ng attained his fellowship in Family Medicine/Emergency Medicine at Western University, Ontario, Canada. He is Physician Advisor of the Division of Continuing Professional Development and Practice Support, College of Family Physicians of Canada; Assistant Professor of the Department of Family and Emergency Medicine, Western University; Consultant Physician in Family and Emergency Medicine at London Health Science Centre and St. Joseph's Health Care, London, Ontario, Canada. His many academic qualifications include Master of Health Professional Education, Maastricht University and his was the Co-Lead Author, World Organization of Family Doctors (WONCA) Continuing Professional Development Standards.

ACTIVATE THE HEART^{1*} ACTIVATE LIFE^{1,2}

Change your symptomatic HFrEF patients to
ENTRESTO[®]

- **Activates the heart's beneficial response** by enhancing the natriuretic peptide system, while maintaining RAAS inhibition^{5,6}
- **20% reduced risk of first CV death** or heart failure hospitalisation vs enalapril ($P < 0.0001$; ARR = 4.7%)^{5*}
- **Significant improvements in Quality of Life** vs enalapril, as measured by reduced deterioration of heart failure symptoms and physical limitations ($P = 0.001$)^{7,8}

When you see symptoms,
IT'S TIME FOR ENTRESTO[®]

Entresto[®]
sacubitril/valsartan

ARR = absolute risk reduction; CV = cardiovascular; HF = heart failure; HFrEF = heart failure with reduced ejection fraction; RAAS = renin-angiotensin-aldosterone system.

* The contemporary cardiovascular benefits of ENTRESTO in patients with HFrEF are attributed to the enhancement of natriuretic peptide system, such as natriuretic peptide (NP), to maintain and the simultaneous inhibition of the deleterious effects of angiotensin II by valsartan.

¹ Based on SOLID ESC HF Guidelines and 2016 ACC/AHA/HFSA Guidelines Update.

² Primary and joint.

³ Secondary and joint. **Source:** The change from baseline to 6 months in the clinical course score on the Kansas City Cardiomyopathy Questionnaire (KCCQ).

With ULTIBRO[®] BREEZHALER[®] Exacerbation Prevention is in your hands

Only ULTIBRO[®] has demonstrated consistent superiority vs. Fluticasone/Salmeterol¹ & Tiotropium¹ across exacerbation outcomes^{1,4,5*}

ULTIBRO[®] BREEZHALER[®] is indicated as a maintenance bronchodilator treatment to relieve symptoms in adult patients with chronic obstructive pulmonary disease (COPD).²

- * ULTIBRO[®] refers to ULTIBRO[®] BREEZHALER[®].
- ¹ Fluticasone/salmeterol 500/500 mg b.i.d.
- ² Tiotropium 18 µg, Q.D.

ULTIBRO[®] BREEZHALER[®] is a long-acting beta2-adrenergic agonist (LABA) in combination with a long-acting muscarinic antagonist (LAMA). The combination of LABA and LAMA provides a synergistic effect on bronchodilation, resulting in improved lung function and symptom relief in patients with COPD. ULTIBRO BREEZHALER is a fixed-dose combination inhaler containing 25 µg of formoterol fumarate dihydrate and 5 µg of vilanterol mesylate per inhalation. It is indicated as a maintenance bronchodilator treatment to relieve symptoms in adult patients with COPD. ULTIBRO BREEZHALER is not intended for the treatment of acute exacerbations of COPD. ULTIBRO BREEZHALER is not intended for use in patients with severe COPD. ULTIBRO BREEZHALER is not intended for use in patients with a history of narrow-angle glaucoma. ULTIBRO BREEZHALER is not intended for use in patients with a history of urinary tract infections. ULTIBRO BREEZHALER is not intended for use in patients with a history of prostate enlargement. ULTIBRO BREEZHALER is not intended for use in patients with a history of heart disease. ULTIBRO BREEZHALER is not intended for use in patients with a history of liver disease. ULTIBRO BREEZHALER is not intended for use in patients with a history of kidney disease. ULTIBRO BREEZHALER is not intended for use in patients with a history of diabetes. ULTIBRO BREEZHALER is not intended for use in patients with a history of hypertension. ULTIBRO BREEZHALER is not intended for use in patients with a history of hyperlipidemia. ULTIBRO BREEZHALER is not intended for use in patients with a history of hypothyroidism. ULTIBRO BREEZHALER is not intended for use in patients with a history of hyperthyroidism. ULTIBRO BREEZHALER is not intended for use in patients with a history of osteoporosis. ULTIBRO BREEZHALER is not intended for use in patients with a history of osteoarthritis. ULTIBRO BREEZHALER is not intended for use in patients with a history of rheumatoid arthritis. ULTIBRO BREEZHALER is not intended for use in patients with a history of psoriasis. ULTIBRO BREEZHALER is not intended for use in patients with a history of eczema. ULTIBRO BREEZHALER is not intended for use in patients with a history of allergic rhinitis. ULTIBRO BREEZHALER is not intended for use in patients with a history of asthma. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic sinusitis. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic rhinitis. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic urticaria. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic hives. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic itch. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry eye. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry mouth. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry skin. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry hair. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry throat. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry nose. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry ears. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry eyes. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry mouth. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry skin. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry hair. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry throat. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry nose. ULTIBRO BREEZHALER is not intended for use in patients with a history of chronic dry ears.
