It gives me immense pleasure to invite you on behalf of the Hong Kong College of Family Physicians and 2016 HKPCC Organizing Committee to the 6th Hong Kong Primary Care Conference scheduled on June 4th - 5th 2016 at the Hong Kong Academy of Medicine Jockey Club Building, Hong Kong.

Based on its continuing success, this annual event has become a hallmark in bringing together local and international experts, health care providers including family physicians, nurses and allied health professionals to promote collaborative and networking opportunities in addressing present and future challenges in primary care.

“A Flourishing Community – Our Vision in Primary Care”. This year’s thought provoking theme will stimulate us to transcend beyond keeping individuals and the community healthy, to embark on the challenge of fulfilling the motto “A Life Worth Living” leading to a community that flourish. As the foundation of the 21st century health systems must be more than ever be focused in primary health care, how should we envision to reach this inspiring goal?

Aside from offering an exciting array of plenary sessions, workshops, seminars and discussion forum, this conference will continue its well-received competitions in research paper, oral, poster and clinical case presentations.

I welcome you all to yet another inspiring, educational and rewarding experience in this coming conference.

Dr. Lorna NG
Chairman, Organizing Committee
Hong Kong Primary Care Conference 2016
Conference Information

Date: 4-5 June 2016 (Saturday-Sunday)

Venue: Hong Kong Academy of Medicine Jockey Club Building, 99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Official Language: English

Academic Accreditation: Applications are in progress and details will be announced later.

Organizer: The Hong Kong College of Family Physicians

Conference Secretariat: General: Ms. Crystal Yung / Ms. Erica So
Registration: Ms. Cherry Chan / Ms. Natalie Ho
Scientific and QA Accreditation: Ms. Crystal Yung / Ms. Wing Yeung
Exhibition & Advertisement: Ms. Teresa Liu
Publication: Ms. Carmen Tong / Ms. Natalie Ho

Contact Details: Tel No.: (852) 2871 8899
Fax No.: (852) 2866 0616
Email: hkpcc@hkcfp.org.hk

Supported by: HKCFP Foundation Fund

Signature: ____________________________  Date: ____________________________
We cordially invite your participation in the **Full Paper Competition** of the HKPCC 2016. The Competition is a long-standing tradition of HKCFP for promoting and recognizing well-designed, innovative research, which bears potential impact on clinical practice or development of primary care. This year, we will have **TWO Awards:**

**AWARDS**

*Best Research Paper Award*

*Best Trainee Research Paper Award*

The HKPCC 2016 Organizing Committee will invite renowned scholars as judges to review the participating papers.

Each awardee will be presented **HK$1,000** cash prize and a **certificate** at the opening ceremony of the HKPCC 2016.

**ELIGIBILITY AND AUTHOR GUIDELINES**

To be eligible for participation in the Full Paper Competition, **the first author of the paper must meet ALL of the following conditions:**

1. The author must be a member of the HKCFP and register at the Conference;
2. The author completes the majority of the research and writing for the paper;
3. The author has not used the paper to apply for other awards.

The participating paper should be a full-length article. **It should include a structured abstract of no more than 250 words.** The text should contain **2,000 - 3,000 words**, organized as **INTRODUCTION, METHODOLOGY, RESULTS and DISCUSSION**. It should consist of no more than **5 illustrations** (tables/figures). Only electronic versions are accepted. The full paper should be typed in 12 point size in Microsoft Word format.

For **Best Trainee Research Paper Award**, additional eligibility applies:

1. The first author must be a trainee of HKCFP or within 3 years of completion of vocational training;
2. For higher trainees who are submitting their Exit Examination research project for this Competition, they must have submitted their project to the Specialty Board and have passed the research segment of the Exit Examination.
AWARD SELECTION CRITERION
Each paper will be evaluated against the following criteria:
(1) Academic rigor of the paper (e.g. originality, methodology, organization and presentation).
(2) Relevance and impact to primary care (e.g. importance of the topic and the impact of the findings on the practice or development of primary care).

HOW TO SUBMIT
Please download the Full Paper Submission Form from College’s Website http://www.hkcfp.org.hk.

By Email – Attach the full paper with the completed “Full Paper Submission Form” and send to hkpcc@hkcfp.org.hk. All entries will be acknowledged on receipt.

For enquiry, please do not hesitate to contact our conference secretariat, Ms. Carmen Tong or Ms. Wing Yeung, at 2871 8899 or by email hkpcc@hkcfp.org.hk.

SUBMISSION DEADLINE
31 March 2016 (Thursday) for Best Research Paper Award
15 April 2016 (Friday) for Best Trainee Research Paper Award

“We look forward to receiving your research articles!”
Free Paper Competition

Apart from the Full Paper Competition, we also have the Free Paper Competition which sees many pioneering research ideas, pilot studies and thought provoking case studies, commentaries and stimulating discussions. The Free Paper Competition is one of the highlights of the HKPCC and can be in the form of ORAL presentation or POSTER presentation. We look forward to your active participation in the Free Paper Competition.

AWARDS
Best Oral Presentation Award.
Best Poster Presentation Award.
Both the winners will receive HKS1,000 cash prize and a certificate.

Author Guidelines

(1) The presentation of the free paper can be in the form of ORAL presentation or POSTER presentation. (The details of oral or poster presentation will be announced later.)
(2) Electronic version is preferred for abstracts. Abstract should be typed in 12-point size in Microsoft Word format. Handwritten abstracts will NOT be accepted.
(3) The abstract must not exceed 250 words, and should be organized as follows: TITLE, AUTHOR(S), INTRODUCTION, METHOD, RESULTS and DISCUSSION. Commentaries and discussion papers need not follow the above format apart from the TITLE and AUTHOR(S).
(4) Authors’ full names and affiliations must be specified. Surnames should be printed in bold.
(5) All abstracts must be submitted in English. All accepted abstracts must be presented in English.
ELIGIBILITY REQUIREMENTS
To be eligible for participation in the free paper presentation, the first author of the paper must meet ALL of the following conditions:

1. The author must register at the Conference;
2. The author completes the majority of the research and writing for the paper;
3. The author has not used the paper to apply for other awards;
4. The Organizing Committee will have the right of final decision on the acceptance of an abstract;
5. Only ONE designated presenter can present the accepted abstract. Co-authors are welcome to register and attend the session of the conference.

AWARD SELECTION CRITERIA
For the Best Oral Presentation Award, each oral presentation will be evaluated against the following criteria:

1. Quality and thoroughness of research methods used to generate findings;
2. Quality of visual presentation if applied;
3. Relevance, innovation and impact to primary care.

For the Best Poster Presentation Award, each poster will be evaluated against the following criteria:

1. Quality of visual presentation (poster layout);
2. Quality and thoroughness of research methods used to generate findings;
3. Relevance, innovation and impact to primary care.

HOW TO SUBMIT
Please download the Abstract Submission Form from College’s Website [http://www.hkcfp.org.hk](http://www.hkcfp.org.hk).

By Email – Attach the abstract with the completed “Abstract Submission Form” and send to [hkpcc@hkcfp.org.hk](mailto:hkpcc@hkcfp.org.hk). All entries will be acknowledged on receipt.

For enquiry, please do not hesitate to contact our conference secretariat, Ms. Carmen Tong or Ms. Wing Yeung, at 2871 8899 or by email [hkpcc@hkcfp.org.hk](mailto:hkpcc@hkcfp.org.hk).

SUBMISSION DEADLINE
31 March 2016 (Thursday)
Clinical Case Competition

Following the success of the Clinical Case Presentation/Competition in past HKPCCs since 2012, the Organizing Committee of the upcoming Hong Kong Primary Care Conference is honored to organize the competition again this year!

The Presentation can be in the form of individual or group presentation with up to 5 people per group. The details of the Presentation are listed as below. We look forward to your active participation in the Clinical Case Presentation.

COMPETITION OUTLINE
(1) Target participants: Doctors, nurses, physiotherapists, clinical psychologist, occupational therapists, dietitians, podiatrists and any other allied health professionals.
(2) Presentation materials: Any kinds of clinical cases relevant to primary care.
(3) Presentation format: In the form of individual presentation, role-play, drama or any other possible format for 15 minutes. Either individual or group presentation with up to 5 people per group is accepted.
(4) The Organizing Committee has the right for final decision on acceptance of the cases for the presentation.

AWARDS
CPD/ CME / CNE points will be granted to all speakers and group members. The Best Presentation Award winner will receive HKS1,000 cash prize and a certificate.

ELIGIBILITY REQUIREMENTS
To be eligible for participation in the Clinical Case Presentation Competition, the presenter must meet ALL the following conditions:
(1) The presenter must register at the Conference.
(2) The presentation should be the original work of the participants.
(3) The candidates should have submitted their presentation proposals prior to the Conference.

AWARD SELECTION CRITERIA
Each presentation proposal should state the theme, and outline of presentation, format (e.g. role-play, drama, video), language and rundown.
Each presentation will be evaluated against the following criteria -
(1) Quality of presentation.
(2) Content of presentation: Relevance and impact to primary care, presentation skills and time management, enhancement to patient care in daily practice and useful take home message.
**HOW TO SUBMIT**

- The entry should be submitted together with presentation proposal and the completed entry form (downloadable from College website [http://www.hkcfp.org.hk](http://www.hkcfp.org.hk)), and emailed to “hkpcc@hkcfp.org.hk”. All entries will be acknowledged on receipt.

- The presentation material should be submitted prior to the Conference **on or before 20 May 2016 (Friday)**.

- If you have any questions concerning the “Clinical Case Presentation”, please contact our conference secretariat, Ms. Carmen Tong or Ms. Wing Yeung, at 2871 8899 or by email hkpcc@hkcfp.org.hk.

**ENTRY FORM, PRESENTATION PROPOSAL SUBMISSION DEADLINE** | **PRESENTATION MATERIAL SUBMISSION DEADLINE**
---|---
8 April 2016 (Friday) | 20 May 2016 (Friday)
The Organizing Committee has the honour of inviting many prestigious speakers at the upcoming HKPCC 2016. We will be introducing our honourable speakers in the coming issues of our announcements.

Workshop 2

Wound Care

Ms Ngan Hau Lan
RN
B Nurs (CUHK), MN (CUHK)
Nurse Consultant (Wound & Stoma Care) in Kowloon East Cluster

Ms Ngan Hau Lan, a registered nurse, is currently a Nurse Consultant (Wound & Stoma Care) in the Kowloon East Cluster under the Hospital Authority. She received her Bachelor and Master of Nursing degree from CUHK. She continued her studies in wound management and received the postgraduate diploma in Enterostomal Therapy Nursing. She has participated in overseas training in Wound Care organized by World of Wounds of La Trobe University, Australia in 2012.

Ms Ngan is experienced in her clinical field, she is also a visiting lecturer and has delivered lectures in Peking University First Hospital, HKU School of Professional and Continuing Education, Institute of Advanced Nursing Studies, HAHO and COC(Family Medicine), HAHO. She has presented in various congresses and conferences on wound care management.

Choosing the appropriate methods and dressing materials are crucial in proper wound management.

How do you choose the right methods for the right wounds?

How much do you know about the available dressing materials in the market or in your hospitals / clinics?

Advanced wound dressing products are one of the important elements in treating problem wounds. However, nowadays, it is reported that there are more than 500 different types of dressings available to manage patients with wounds. This is an exciting and challenging decision for clinicians to select the appropriate dressing materials and methods for our patients.

This workshop is designed to increase clinicians’ knowledge on principles of wound management, moist wound healing, moisture-balanced dressing and selection of advanced wound dressing product to management wound.

The objectives are:
- To understand the principles of wound management
- To introduce the concept of moist wound healing
- To describe the moisture – balanced dressing
- To demonstrate the indication and application of current advanced dressing products
Workshop 3

Clinical Leadership

Professor Michael Kidd AM
FAHMS FHKCFP (Hon) FRACGP
President, World Organization of Family Doctors (WONCA);
Executive Dean & Matthew Flinders Distinguished Professor; Faculty of Medicine,
Nursing and Health Sciences, Flinders University, Australia

Professor Michael Kidd AM is the current president of the World Organization of Family Doctors (WONCA), the executive dean of the Faculty of Medicine, Nursing and Health Sciences at Flinders University in Australia. He was previously Professor and Head of the Department of General Practice at the University of Sydney and a past president of the RACGP.

He is an elected Fellow of the Australian Academy of Health and Medical Sciences, a council member of Australia’s National Health and Medical Research Council, and a director of beyondblue, Australia’s national initiative to tackle depression, anxiety and suicide.

Michael has been a frequent visitor to Hong Kong over the past 25 years. In 2004 he was invited to deliver the prestigious Dr Sun Yat Sen Oration, and in 2006 he was awarded Honorary Fellowship of the HKCFP. In 2009 he was made a Member of the Order of Australia for his services to health care and education.

As a Medical Student in the University, have you ever been taught to become the Leader of the Medical Student Society?

As a General Practitioner in Private Practice or a Case Medical Officer in the Public Setting, have you ever been trained to become the Case Leader of a Multidisciplinary Team in Patient Care?

As Clinician in-charge of a Group Practice or the Leader of a Medical Professional Organization, have you ever been trained to manage those complicated Administrative Duties?

As a Leader in Public Health Education, have you ever been advised on the skills of delivering health talks, writing health articles or working with media?

What are the qualities of being a Good Leader in the medical field?

Are you prepared to be the Leader?

As clinicians we are often asked to act as leaders, sometimes for the sake of ensuring the availability of high quality primary health care for the members of our communities. We need the skills to be effective in leadership roles as leaders of the teams in our clinics, as leaders in our communities and as the leaders of our professional organizations. This workshop will focus on the qualities of a good leader, leadership principles, leadership preparation, and practical advice on public speaking and working with media.
Seminar B

Dietary Approach to Management of Common Conditions in Primary Care

Miss Elizabeth Leung

B. Sc. in Food Nutrition and Health, Major in Dietetics (UBC) Dietetic Internship (St Michael's Hospital) Master in Applied Human Nutrition (MSVU) Certificate in Chinese Medicine for Hospital Authority Medical and Healthcare Professionals (CUHK) Professional Diploma in Health Counselling (HKBU) Clinical Dietitian, Queen Mary Hospital, Hospital Authority Registered Dietitian, the College of Dietitians of Ontario

Miss Elizabeth Leung is currently a Clinical Dietitian in Queen Mary Hospital under the Hospital Authority. She received her Bachelor in Food Nutrition and Health, Major in Dietetics in University of British Columbia, Vancouver, and her Master in Applied Human Nutrition in Mount Saint Vincent University, Halifax, Nova Scotia.

She is experienced in the field and was the nutrition speaker in POLCCF Dialysis Centre in Hong Kong.

She participated in a cross-sectional, observational study titled “Use of an abridged scored Patient-Generated Subjective Global Assessment (abPG-SGA) as a nutritional screening tool for cancer patients in an outpatient setting.” And was published in an international journal, Nutrition and Cancer on 2013.

Dietary advice is very important for our daily practices to take care of our patients especially for those with chronic diseases such as chronic renal disease, hypertension and gout.

As a health care provider, what should we know about medical nutrition therapies?

What dietary advices are important for our patients with chronic disease?

The burden of chronic diseases is increasing rapidly around the world. According to the World Health Organization, chronic diseases will account for almost three quarters of all deaths worldwide. Over the years, medical nutrition therapy (MNT) has become an essential component and often an initial step in managing chronic diseases and their associated symptoms. By performing a comprehensive dietary assessment, planning and implementing a nutrition intervention using evidenced-based nutrition practice guidelines, MNT has demonstrated effectiveness in improving clinical outcomes, improving quality of life and reducing medical costs. This presentation serves to provide an overview of the medical nutrition therapies used in the management of common conditions such as chronic renal disease, hypertension and gout.
Seminar C

Updates on Management of Chronic Hepatitis B & C

Professor Nancy Leung
BSc. MSc MBBS MD FRCP Lon & Edin FHKCP FHKAM (Medicine)
Specialist in Gastroenterology and Hepatology
Honorary Clinical Professor, Chinese University of Hong Kong
Honorary Consultant, Hong Kong Family Planning Association

Professor Nancy Leung has been doing researches in hepatology since 1980s. She participated in over 20 multicenter international phase 1, 2 and 3 clinical therapeutic trials as Principle Investigator. She has over 125 publications in various international journals including Hepatology, Gastroenterology, Journal of Hepatology, Hepatology International, Liver International and Journal of Gastroenterology and Hepatology.

After her retirement from the Hospital Authority of Hong Kong, she continues part-time teaching in addition to her private clinic. She devotes more time in health advocacy and public education especially on liver diseases, through ASIAHEP Hong Kong Ltd of which she was the founding Chairperson in 1996. She is also a member of various international organizations, including AASLD, EASL, APASL, IASL, ESGE, WAHPBS and HKASLD.

Chronic Hepatitis B (CHB)

Management of CHB evolves rapidly. Below are some important clinical updates:

1. 25% of CHB patients die early from cirrhosis and hepatocellular carcinoma. Antiviral therapy reduced, but not eliminated, the risk for patients with advanced fibrosis and cirrhosis, prompting the need for earlier initiation of treatment.
2. Entecavir & tenofovir are recommended by international liver associations and WHO. Serum HBV DNA becomes undetectable but viral rebound and relapse of hepatitis occur if therapy is stopped. The ultimate goal is HBsAg loss, but rarely occurs.
3. Response to one year pegylated interferon is only around 40%, prompting response-guided therapy with qHBsAg. Combination of nucleos(t)ide and pegylated interferon is being explored to enhance HBsAg loss.
4. Patients with positive HBsAg who need immunosuppressive therapy should be given prophylactic antiviral therapy. Biologics (e.g. rituximab) are more potent suppressant and those anti-HBc positive should also be given antiviral therapy.
5. Universal HBV vaccination and HBlg administration within 24 hours if mother is HBsAg positive has prevented mother-to-child-transmission. However, mothers with serum viral levels over 6log10IU/mL have 5-10% risk of infecting their offspring. A short course of oral tenofovir or telbivudine in the last trimester has been showed to eliminate this safely.
6. In the horizon are therapeutic molecules in different stages of clinical trials, including tenofovir alafenamide, entry inhibitor Myrcludex-B, epigenetic control of nuclear cccDNA minichromosome, and assembly inhibitors, immunomodulators via Toll-like receptor and Programmed Death-1, therapeutic vaccines, small interfering RNA (siRNA), and other nucleic acid-based technologies.

Chronic Hepatitis C (CHC)

The standard of care – one year combination of pegylated interferon and oral ribavirin, only results in 40-60% viral response across genotypes 1 to 6. The therapy is also associated with many side-effects. Now, we have a number of eight to twelve weeks regimens* which are Interferon-free, ribavirin-free and achieve over 90% HCV eradication. They are combination of NS3, NS5a, NS5b(N), NS5b(NN) or cyclophilin. However, the current cost is prohibitive.

*Ombitasvir, paritaprevir, dasabuvir & ritonavir (VieKiera Pak® AbbVie); sofosbuvir & ledipasvir (Harvoni® Gilead); asunaprevir & daclatasvir (Bristol-Myers Squibb); sofosbuvir & daclatasvir (Gilead and MSD)
Organizing Committee 2016

Chairman: Dr. NG Lorna
Vice-Chairman: Dr. WONG Chi Wai, William
Advisors: Dr. CHAN Ming Wai, Angus
Dr. CHAO Vai Kiong, David
Dr. FOO Kam So, Stephen
