Inauguration of Family Medicine in Singapore Academy of Medicine

I am delighted to share with you this great news. The College of Family Physicians Singapore has been recognized as a specialty within the Singapore Academy of Medicine since July 2015. The formation of the specialty of Family Medicine in the Singapore Academy of Medicine is a significant milestone in its development. Thanks to our Past President Dr. Donald Li in attending the inauguration of our sister College.

Nomination to FHKAM

The College has run vocational training programme for family doctors for over 20 years in accordance with the requirements of the Hong Kong Academy of Medicine. In order to align the comparable qualifications and training requirements in Family Medicine for doctors who have been trained locally and those who have been trained overseas, HKCFP has set up a working group to conduct a thorough review of the existing practice and elaborated on the details of comparable training since 2013.

After 2 years of hard work and with reference to international training standards, I am delighted to inform you that we have successfully aligned the comparable experience of the 6 years training requirement for nomination to HKAM fellow for Members and Fellows with HKCFP recognised intermediate qualifications such as FHKCFP, FRACGP, MRCGP, FRCGP, CCFP, FCFP, DABFP, FAAFP, MRNZCGP, FRNZCGP, and MICGP. This alignment has been approved by the Council of the Hong Kong Academy of Medicine in August 2015 allowing family doctors who have already acquired HKCFP recognised intermediate qualifications to be eligible for nomination as HKAM Fellows if they fulfill the prevailing training requirements.

I encourage all our College Members and Fellows who hold the abovementioned intermediate qualifications and would contemplate to become HKAM Fellows and to achieve the status of Specialist in Family Medicine to take note of these new developments and contact our Board of Vocational Training and Standards.

I have to thank Dr. Ruby Lee for heading the Working Group in the review and Dr. David Chao in presenting the case to the Education Committee, HKAM.

(Continued on page 2)
Message from the President

Lunch gathering with secretariat staff

You may have talked with our secretariat staff over the phone many times, but most of you haven’t yet met them in person. To thank our staff for their unfailing support in the past year and their tremendous effort especially on the recent annual events like HKPCC and Conferment Ceremony, the Executives had a lunch gathering with them on 3 July at Marriott Hotel.

Internal Affairs Committee News

Debriefing Meeting with Helpers of the Conferment Ceremony

The 28th Fellowship Conferment Ceremony and the 26th Dr. Sun Yat Sen Oration were successfully held on 31 May 2015.

A debriefing meeting with helpers of the Conferment Ceremony was conducted on 26 June 2015. The Committee would like to take this opportunity to thank all the helpers for their valuable time and effort in making this import College annual event a true success. We would also like to thank Dr. Lo Ling to be our volunteer photographer this year. The ceremony would not have been run so smoothly without their tremendous support and contribution. Thanks again!

Many thanks also to helpers who were unable to join the debriefing: Dr. Edmond Chan, Dr. Chow Kai Lim, Dr. Peter Anthony Fok, Dr. Lo Ling, Dr. Jenny Wang and Dr. Wong Chak Tong.
Dear College members,

We are still providing this alternative channel of communication for you to reach us. Do let us have your ideas and comments so that we can further improve our services to all the members.

From 15th August 2015 to 14th September 2015, Dr. Wendy Tsui and Dr. Yuen Shiu Man will be the Council Members-On-Duty. Please feel free to make use of this channel to voice your doubts, concerns, queries, and comments on anything related to our College and Family Medicine. You can reach us by contacting our College Secretariat by phone: 2528 6618, by fax: 2866 0616, or by email: hkcfp@hkcfp.org.hk. Once we receive your call or message, we will get in touch with you directly as soon as we can.

Dr. Tony C. K. Lee

Position Vacant

Invites applicants for full time doctor in Evangel Hospital. Please send your C.V. and enquiry to hr@evanhosp.org.hk.
Director, University Health Service

The Institution
The Hong Kong Polytechnic University is a government-funded tertiary institution in Hong Kong. It offers programmes at various levels including Doctorate, Master’s and Bachelor’s degrees. It has a full-time academic staff strength of around 1,200. The total consolidated expenditure budget of the University is close to HK$5.5 billion (US$705 million) per year.

The Position
The University is looking for a highly competent and experienced physician to head its University Health Service (UHS) which has around 40 professional and support staff.

The UHS provides primary health care services to students, staff and other eligible users in a cost effective manner. It offers medical consultation, traditional Chinese medicine service, nursing services, chronic disease management, investigation and treatment services, and emergency service. The UHS is also an accredited community-based training centre by The Hong Kong College of Family Physicians. Please visit the website at http://www.polyu.edu.hk/uhs/en for more information about UHS.

Assuming overall managerial responsibilities on all functions of UHS, the appointee will be required to (a) formulate and review the vision and mission, goals and objectives as well as development strategies of UHS; (b) lead and manage the team in providing quality health care services to eligible users; (c) oversee the formulation and implementation of health promotion and diseases prevention programmes; (d) ensure optimal deployment of human, financial and other resources efficiently and effectively; and (e) provide leadership in building a harmonious, caring and cooperating team which is committed to accomplishing established objectives.

Candidate Profile
The ideal candidate should have (a) qualification registrable with the Medical Council of Hong Kong; (b) a valid practicing certificate issued by the Medical Council of Hong Kong; (c) a higher qualification in Internal Medicine and/or Family Medicine; (d) substantial post-qualification experience, of which some at senior management level, in health care services; (e) thorough understanding and insight of health care services as well as rich knowledge of clinic/hospital operation; (f) excellent communication and leadership skills; and (g) a good command of both spoken and written English and Chinese.

Remuneration and Conditions of Service
A highly competitive remuneration package will be offered. Initial appointment will be made on a fixed-term gratuity-bearing contract. Re-engagement thereafter is subject to mutual agreement. Applicants should state their current and expected salary in the application.

Application and Nomination
The Hong Kong Polytechnic University invites applications and nominations for appointment as Director, University Health Service. Review of applications and nominations will continue until the post is filled. Please submit applications or nominations via email to hrstaff@polyu.edu.hk; by fax at 2764 3374; in person to Human Resources Office, 13/F, Li Ka Shing Tower, The Hong Kong Polytechnic University, Hung Hom, Kowloon; or by mail to the above address. If you would like to provide separate curriculum vitae, please still complete the application form which will help speed up the recruitment process. Application forms can be obtained via the above channels or downloaded from http://www.polyu.edu.hk/hro/job/en/guide_forms/forms.php. The information collected will be used for consideration of the application and for purposes relating to appointment. The University reserves the right not to fill the position or to make an appointment by invitation. The University Personal Information Collection Statement for recruitment can be found at http://www.polyu.edu.hk/hro/job/en/guide_forms/pics.php.

Meeting Highlights

CME Lecture on 3 June 2015

Dr. Siu Ka Fai, Danny, Specialist in Gastroenterology and Hepatology, delivered a lecture on “Update Management of IBS” on 3 June 2015.

CME Lecture on 9 June 2015

Prof. Brian Tomlinson, Specialist in Internal Medicine, Head of Division of Clinical Pharmacology, Department of Medicine and Therapeutics, The Chinese University of Hong Kong, delivered a lecture on “From Guidelines to Clinical Practice: An expert’s View on Hypertension Treatment”.

27th ENT Update

The 27th ENT Update, co-organised with the Department of Otorhinolaryngology, Head and Neck Surgery, the Chinese University of Hong Kong (CUHK) was held on 14 June 2015.

Prof. Michael Tong, Head of Academic Divisions, Department of Otorhinolaryngology, Head and Neck Surgery, CUHK, Dr. Dennis Lee, Associate Consultant, Department of Ear, Nose and Throat, United Christian Hospital, Dr. Victor Abdullah, Chief, Division of Paediatric Otorhinolaryngology, Department of Otorhinolaryngology, Head and Neck Surgery, CUHK, Dr. John Woo, Director of Postgraduate Teaching, Department of Otorhinolaryngology, Head and Neck Surgery, CUHK and Dr. Eddy Wong, Associate Consultant, Department of Ear, Nose and Throat, Prince of Wales Hospital were the speakers of this Update.

Certificate Course on Bringing Better Health to our Community 2015

The 3rd session of the “Certificate Course on Bringing Better Health to our Community 2015” co-organized with Queen Elizabeth Hospital was held on 18 July 2015. Dr. Chin Ping Hong, Specialist in Orthopaedics & Traumatology, Consultant of the Department of Orthopaedics and Traumatology, Queen Elizabeth Hospital, delivered a lecture on “Commonly encountered Musculoskeletal Problem – Acute Back Pain” and Dr. Chan Hiu Fai, Specialist in Neurology, Consultant of Department of Medicine, Queen Elizabeth Hospital, delivered a lecture on “Commonly encountered Neurological problem – Approach to Upper Limb Numbness” respectively.

CME Accreditation Pending | CNE 5.5 points | CPD (Allied Health) 6 points  
Registration Deadline: 16 August 2015 | For Medical Professionals Only
HKCFP Trainees Research Fund 2015 / HKCFP Research Seed Fund 2015

The Research Committee of HKCFP is proud to continue to offer the two research funds, The Trainees Research Fund and the Research Seed Fund.

The Trainees Research Fund will be opened to all registered HKCFP trainees and is made of four awards (each up to HK$5,000). It is envisaged it will help trainees especially (but not limited to) those doing research projects as their exit examination. Those who have funding support elsewhere will not be considered.

The Research Seed Fund is open to all HKCFP members when a maximum of $10,000 award will be made to the successful applicant to assist the conduction of a research project.

Winners of the award will receive 50% of the approved grant up front and the remainder 50% upon completion of the project.

**Assessment Criteria for both funds:**

1. Academic rigor of the paper (e.g. originality, methodology, organization and presentation);

2. Relevance and impact to family medicine & primary care (e.g. importance of the topic and the impact of the findings on the practice or development of the discipline); and

3. Overall budget

Each research project submitted will be assessed according to the above assessment criteria set by the selection panel. Please send your submission to:

Research Committee, HKCFP
803-4, 8/F, HKAM Jockey Club Building, 99 Wong Chuk Hang Road, Aberdeen, Hong Kong by post or by email: jeffcheng@hkcfp.org.hk

Please indicate the research funding title e.g. “HKCFP Trainees Research Fund 2015/ HKCFP Research Seed Fund 2015” on your research project upon submission.

**Submission Deadline:** 31st August 2015
A Fine Needle Great Wonder - Acupuncture for Stress Relief and Early Aging Prevention (Including Acupuncture Demonstration)
Please come and know more about the effectiveness of acupuncture for Stress and Aging!

Date: 27 August 2015 (Thu)
Time: 7:00 - 8:00pm
Venue: HKU SPACE Admiralty Learning Centre, 18 Harcourt Road, Hong Kong

Speaker: Ms A. P. Qin, Assoicate Professor (Chinese Medicine) and Graduates
This seminar is free of charge, and on a first come, first served basis!
Enquiries: 3762 4216 (Ms Ng)
Online Registration: https://www.hkuspace.hku.hk/event/20150827/acupuncture-seminar-270802015

The School may make available related programme information material at the seminar.

The English Acupuncture Courses in H.K.

1. Diploma in Clinical Acupuncture [Course Code: CM 48-105-00 (51)]
   Acupuncture is proven to be effective in the treatment of diseases. The World Health Organization (WHO) recommends a number of conditions that can be treated by Acupuncture. This course provides Western-trained medical practitioners and professionals who are interested in acupuncture with an opportunity to reieve acupuncture training.
   This programme consists of two parts. Each part consists of one module. Students who complete one module of Part 1 can choose to exit the programme. Completion of one module will lead to a Certificate in Acupuncture. Upon successful completion of Part 1 and Part 2, students will be awarded a Diploma in Clinical Acupuncture.
   Entry Requirements:
   1. Western medical practitioners, Physiotherapists, Nurses, Osteopaths, Chiropractors or medical related professionals; or
   2. Holders of Bachelor's degree or equivalent
   Commencement Date: 8 October 2015 (Mondays and Thursdays, 8:00 - 10:00pm)
   Application Fee: HK$150 (non-refundable)
   Medium of Instruction: English
   Our programme is approved by the Physiotherapists Board as quotable qualification. Upon completion of our programme: (1) 15 CPD points awarded by the Physiotherapists Board will be granted to students who are physiotherapists. (2) Physiotherapists may be eligible to apply for Accredited Acupuncture Physiotherapists.

2. Introduction to Acupuncture of Chinese Medicine [Course Code: CM 48-068-01-01 (51)]
   This course provides the philosophical background of Chinese medicine and illustrates how acupuncture helps manage our health.
   Commencement Date: 1 September 2015 (Tuesdays, 7:00 - 9:00pm)
   Duration: 10 hours (5 meetings)
   Course Fee: HK$1,400
   Medium of Instruction: English

3. Advanced Diploma in Tui-Na 推拿學高等文憑 [Course Code: CM 38-130-00 (51)]
   Commencement starts on 9 September 2015 (Wednesdays & Fridays / 7:00-10:00pm; Saturdays 3:00-6:00pm)

4. Advanced Diploma in Acupuncture 針灸學高等文憑 [Course Code: CM 48-113-00 (51)]
   Commencement starts on 9 September 2015 (Wednesdays & Fridays / 7:00-10:00pm; Saturdays 3:00-6:00pm)
Everyone Has a Story in Life

A 24 year old boy seeing out from the train’s window shouted...

“Dad, look the trees are going behind!”

Dad smiled and a young couple sitting nearby, looked at the 24 year old’s childish behavior with pity, suddenly he again exclaimed...

“Dad, look the clouds are running with us!”

The couple couldn’t resist and said to the old man...

“Why don’t you take your son to a good doctor?” The old man smiled and said...“I did and we are just coming from the hospital, my son was blind from birth, he just got his eyes today.

Every single person on the planet has a story. Don’t judge people before you truly know them. The truth might surprise you.

**Overview of DFM Macau and CFM Shunde**

Dr. Chan Man Li
Coordinator of DFM Macau, Board of Diploma in Family Medicine, HKCFP

It gives me a great honour to introduce our college’s well organized and structured training programme for overseas doctors. The HKCFP’s Diploma of Family Medicine [DFM] course has extended the teaching to Macau doctors since 2012 with the invitation by the Department of Health of the Macau Government SAR.

**Mission of the DFM Programme**

1. To provide a knowledgeable, pragmatic and structured teaching in Family Medicine for medical practitioners and for medical trainees who intend to take up Family Medicine as their career
2. To encourage professional development of practising medical practitioners and to attain the qualification in Family Medicine
3. To improve standards and quality in the practice of Family Medicine

The course contents are very comprehensive and are divided into 2 parts and 5 modules:

1st Part: [distance learning ]
- Module I – Principles of Family Medicine
- Module II – Common Problems in Family Medicine

2nd Part: [practical workshop, attachment and seminar etc ]
- Module III – Essentials of Family Medicine (Structured Seminars)
- Module IV – Family Medicine Attachment
- Module V – Practical Family Medicine (Practical Workshops)

Our college speakers would travel to Macau to deliver the various workshops and seminars, except Women’s Health & Orthopaedic Injection workshops in which the candidates need to come to the Wan Chai’s premise of our college for the practical hand-on demonstration workshops.

The overall evaluation of the DFM course by our students is very encouraging and supportive regarding our teaching. As shown in the below table of the cumulative data of course evaluation, the two key components of the quality of presentation and the enhancement of the knowledge and skills achieved very high rating from the students.
In 2014, we were invited again by the Government of Macau SAR Department of Health to launch the Certificate course on Clinical Communication and Diagnosis [CCD] to teach and enhance the clinical communication skill and diagnostic skill for resident doctors enrolled for various specialties. There were 14 successful CCD candidates enrolled in 2014-15, some of them have further pursued for the DFM course in the year next to completion.

With the successful extension of teaching to Macau, our college was invited by the Shunde Health and Family Planning Bureau with the generous donation and support from the Hong Kong Min Yuen Tong to deliver the Certificate of Family Medicine [CFM], similar to the DFM Macau course, to doctors at Shunde, Mainland China since Dec 2014.
Finally, I would like to take this opportunity to say thank you for the ongoing support to our college DFM course from our local teachers, our Macau coordinator Dr. Chau Chi Hung and all of our DFM students, furthermore, the Hong Kong Min Yuen Tong for their generous donation to our college and support to organise the certificate course in Shunde. Without anyone of you, we could not extend our programme from Hong Kong to Macau and to Mainland China.
In the past, we believe unsaturated fatty acid is healthier than saturated fatty acid. However recent evidence found that Trans fat, also called trans-fatty acids (TFA), despite the presence of unsaturated fatty acid, is considered to be the worst type of dietary fat one can eat.

There are two sources of TFA:

- **Trans fat formed naturally** – this type of TFA is produced in the gut of some grazing animals. That’s why small quantities of TFA can be found in animal products like meat, milk, and milk products.

- **Trans fat formed during food processing** – this type of TFA is created when hydrogen is added to vegetable oil (a process called hydrogenation) to make it more solid at room temperature. Manufactured form of TFA, known as Partially Hydrogenated Oils (PHOs) are used by food manufacturers to improve the texture, shelf life, and flavor stability of foods. This partially hydrogenated oil is less likely to spoil, so foods made with it have a longer shelf life. Some restaurants use partially hydrogenated vegetable oil in their deep fryers, because it doesn’t have to be changed as often as compared to other oils.

### Why TFA is bad?

Unlike other dietary fats, TFA raises Low density lipoprotein (LDL) cholesterol and lowers high density lipoprotein (HDL) cholesterol. This can increase the risk of cardiovascular disease.

### Actions on TFA in USA

Since 2006, USA manufacturers have been required to include TFA content information on the Nutrition Facts label of foods. Between 2003 and 2012, the U.S. Food and Drug Administration (US FDA) estimates that consumer trans fat consumption decreased by about 78 percent.

Based on a thorough review of the scientific evidence, in 2013, the (US FDA) finalized its determination that PHOs, the primary dietary source of artificial trans fat in processed foods, are not “generally recognized as safe” for use in human food.

In June 2015, US FDA has set a compliance period of three years for food manufacturers to remove PHOs from products. Following the compliance period, no PHOs can be added to human food unless they are otherwise approved by the FDA. This action is expected to reduce coronary heart disease and prevent thousands of fatal heart attacks every year.

### Local Situation

Hong Kong is one of the first few places in the world that requires the declaration of TFA content on nutrition labels. The Centre for Food Safety (CFS) has also formulated guidelines to encourage the trade to reduce TFA level in foods and, at the same time, conducted a series of studies to track the TFA contents in local foods. The study revealed that there has been a large reduction in the average TFA contents (27-70% reduction) in four food categories that had been found in previous studies to contain relatively higher levels of TFA (i.e. cakes; egg tart, pie and pastry; bread; and other bakery products), reflecting the positive effect of the trade in reducing TFA level in their products.

From CFS study, it was noted that the TFA contents in some individual samples have reduced dramatically whilst a similar saturated fatty acid contents have been maintained, reflecting that the reduction in TFA without raising the saturated fatty acid contents in foods is practically feasible.

### How to reduce the amount of trans fat one eat?

The best ways to reduce the amount of trans fat that you eat are to enjoy healthy eating and choose foods with lower levels of both saturated and trans fat as stated on the nutrition label.

Here are some simple tips for achieving a healthy balanced diet low in saturated and trans fat.

- Use spreads and margarines made from canola, sunflower or olive oil, and dairy blends instead of butter. Spread thinly so you can still see the bread.
- Cook with polyunsaturated or monounsaturated oils, such as canola, sunflower, soybean, olive, sesame and peanut oils. Measure out your oil with a teaspoon or use a spray oil.
- Grill, bake, poach, steam or stir fry rather than shallow or deep frying and roasting in oil.
- Select lean meat, poultry and game. Try to trim all visible fat from the meat before cooking. Remove the skin from chicken.
- Use reduced, low or no fat dairy products.
- Try to limit deep fried foods and fatty take-away foods to no more than once a week.
- Try to limit fatty snacks, such as crisps, cakes, pastries, biscuits and chocolate, to once a week.

Compiled by Dr. Law Tung Chi
LEARNING POINTS FROM BOARD OF EDUCATION

Interest Group in Dermatology - The 48th Meeting on 4 July 2015

Dr. Tse Kwok Lam - College Member

**Theme**: New Management Update on Rosacea and Facial Redness

**Speaker**: Dr. Wong Sai Siong
Specialist in Dermatology and Venereology

**Moderator**: Dr. Siu Che Hung, Paul HKCFP

**Learning Points**

Dr. Wong Sai Siong updated the diagnosis, pathophysiology and treatment of Rosacea. He focused on various topical, systemic and light based treatments and introduced the latest topical therapy for Rosacea.

Rosacea is a common chronic inflammatory skin disorder. There are central facial flushing, redness (transient or persistent erythema), papules, pustules, and dilated blood vessels (telangiectasia). Severe cases may have nose enlargement (rhinophyma) or eye/eyelid involvement (ocular rosacea).

Diagnostic criteria (rosacea is a clinical diagnosis)

- **Primary features** (presence of one or more of the following): transient erythema (flushing), non-transient erythema, papules and pustules, telangiectasia

- **Secondary features** (one or more of the following): burning or stinging, plaque, dry appearance, edema, ocular manifestations, peripheral location, phymatous changes

There are four subtypes: 1-Erythematotelangiectatic 2 – Papulopustular 3- Phymatous 4- Ocular rosacea

Differential diagnoses included acne vulgaris, steroid acne, atopic/contact/seborrhoeic eczema, lupus erythematosus

**Treatment**

Avoid triggering factors: UV light, spicy/hot food, alcohol, heat, exercise, stress/anxiety, Demodex mites, steroid (topical/systemic/inhaler/nebulized), topical irritant (make up, facial/mask, creams containing alcohol/fragrance).

Reduce erythema, papules and pustules by using:

- Topical therapy
- Oral therapy
- Light based therapy

Topical therapy: Topical antibiotics (metronidazole)/antiacne (azelaic acid)/antiparasitic (ivermectin) for papules and pustules, topical alpha-adrenergic receptor agonist (brimonidine= Mirvaso) for persistent erythema

Systemic therapy: Systemic antibiotics (tetracycline, doxycycline, lymecycline, clarithromycin) for papules and pustules, ocular rosacea; systemic isotretinoin for severe resistant cases

Laser therapy: Pulse dye lasers for erythematotelangiectatic rosacea; Intense pulse light (IPL) for erythematotelangiectatic rosacea; CO2 laser/ pulse dye laser/ fractional laser for rhinophyma

Mirvaso gel (Brimonidine gel) is a new topical medication for rosacea

- Topical alpha-2 adrenergic receptor agonist
- Effective for erythema of rosacea,
- No effect for papules, telangiectasia
- Once daily application
- Fast-acting: Effect seen within 30 mins
- Non-permanent: Effect lasts up to 12 hours only
- Consistent effect over 12-months daily use.
- Side effects include flushing/ erythema/ stinging/ worsening redness

**Next meeting**

The next meeting will be on 5 September 2015 (Saturday). The guest speaker is Dr. Chan Hau Ngai, Kingsley, Specialist in Dermatology and Venereology. He will speak to us on “Management of Eczema - Topical steroid the only treatment?”. All members are welcome and encouraged to present their cases and problems for discussions or role play. Please send your cases to our secretariat (teresaliu@hkcfp.org.hk) 2 weeks before the date of presentation.

(Disclaimer: All advice and sharing in the meeting are personal opinions and bear no legal responsibility. All patients’ identities are kept confidential.)
### Refresher Course for Health Care Providers 2015/2016

ASSESSMENT ENHANCEMENT COURSE (AEC) FOR FAMILY PHYSICIANS 2015

Organizer : Assessment Enhancement Sub-committee, Board of Education, HKCFP
Tutors : Family Medicine Specialists, Fellows of HKCFP and RACGP
Supervisors : Dr. Tam Chung Yin, Janet and Dr. Chan Chi Wai
Co-ordinator : Dr. Lai Sheung Siu
Objectives :
1. To improve clinical knowledge, problem solving and consultation skills through different workshops
2. To improve physical examination technique and clinic procedural skills through hands-on experience
3. To provide opportunity for inter-professional communication and social network expansion through self-help groups
4. To improve time management through simulated examination
Venue : Duke of Windsor Social Service Building and HKAM Jockey Club Building
Date : 6 months’ course starting from April 2015
Course Structure : The course will consist of 4 main components:
1. Seminars
2. Workshops
3. Self-help Group Support
4. Mock Exam
Seminars and Workshops will be arranged on Saturday afternoons (2:30 p.m. to 5:30 p.m.)
Accreditation : Up to 15 CME points (Category 4.4) & 5 CPD points (Category 3.15) for the whole course
Course Fee : Members : HK$3,200 (Whole course)
HK$900 (Spot admission for each seminar or workshop only)
All cheques payable to “HKCFP Education Ltd”
All Fees received are non-refundable and non-transferable.
Capacity : 50 doctors maximum
Enrolment : Enrolment is now open. Please call the College Secretariat, Ms. Teresa Liu or Mr. Jeff Cheng, at 2528 6618 for details. Successful applicants will be informed later.
Disclaimer : All cases and answers are suggested by our tutors only. They are not standard answers for examination.
