PRESIDENT'S MESSAGE (DR. DONALD K T LI)

Many dramatic changes occurred in 2004.

Despite the administrators of the Hong Kong SAR government acknowledging the importance of Family Medicine training since the release of the Harvard report with the Hospital Authority taking up the responsibility seriously, for many years I have expressed the concern for the lack of consultants in Family Medicine in the Hospital Authority. I am therefore delighted to see the appointment of four of them this year. This is confirmation of Family Medicine as a specialty even in the hospital setting and further recognition of the important role of family physicians as gate keepers of the healthcare system.

I was concerned however that a new posting inappropriately named GP is created in the Hospital Authority which is supposed to be a service post only. Whereas one can understand that the Hospital Authority will have limited resources, to maintain a high quality of primary care in Hong Kong all new medical graduates must receive adequate and proper training. We hope that the diploma course in Family Medicine, launched successfully by our College in collaboration with Monash University which became quotable after vetting by the Medical Council in July this year, will provide an opportunity for those primary medical providers who cannot complete specialist family medicine training to upgrade the quality of their service to the community.

We continue to enjoy a close relation with the Royal Australian College of General Practitioners. Our conjoint exam takes a new format starting this year and we have received a lot of help from our sister College. Two previous past presidents, Dr Stephen Foc and Dr Natilus Yuen, received honorary fellowships from RACGP this year. We are continuing our talks with the Royal College of General Practitioners of the United Kingdom of the award of the MRCGP (international) to successful candidates of our conjoint examination. The conjoint examination has initially passed the scrutiny of visitors from RCGP during the past two years.

Our College worked closely with the Capital University of Medical Science as well as the Ministry of Health of China to provide a family medicine update course for mainland practitioners. A pilot course was held in August attended by over 40 participants from all over the mainland. The event provided an excellent platform for academic exchange.

To maintain our prominence internationally, delegates from our College attended the World WONCA Conference in Orlando, U.S.A. as well as presented papers. Our College was also successful in winning a bid to host the WONCA Asia Pacific region in 2009.

As a result of the SARS investigation our Health Secretary Dr E.K Yeoh and Chairman of the Hospital Authority, Dr Leong Chi Hung, both resigned. I wish to pay tribute to these two firm supporters of Family Medicine throughout the years they were in office. It is unfortunate to lose two great leaders for the convenience of some politicians. Dr Lo Wing Lok who did not manage to continue another term in LegCo was also extremely supportive of our College and of Family Medicine. On a happier note, one of our Fellows, Dr Choi Kin was elected President of the Hong Kong Medical Association. Dr Stephen Foo, Immediate Past President of our College was elected Honorary Treasurer of the new HKAM council.

I have enjoyed serving the College as president for the past 6 years. Nothing gives me more pleasure than to see our College progress from strength to strength. As I watch the talented new generation of family physicians participate in College activities, assist in teaching, become examiners of our Conjoint Examination, as well as sing and show their talents, I realize our efforts in the past 26 years have been well worth it. I would like to take this opportunity to thank all of you, the Council, Censors and the Secretariat for the unfailing support they have given me.

HON. SECRETARY (DR. JOHN T.N. CHUNG)

It has been another eventful year.

On the home front, the College continued to meet growing demands from its members and in the development of Family Medicine. Workload in the Board of Vocational Training and Standards has expanded manifold from increasing numbers of trainees enrolling in the vocational programme and dealing with training difficulties. Examination candidates have also increased so the Board of Examination and Assessment has had a very busy year. Membership continues to grow as more graduates turn to Family Medicine as an attractive career choice. The Computer Committee has been kept busy as demands on information technology increased with the reinstatement of the old Wanchai College premises as an office and problems experienced with the present out-moded system. The College held another Conferment Ceremony together with the Hong Kong College of Community Medicine and a first conjoint scientific meeting with that College, strengthening the ties between these two Colleges serving the community.

The College has started a newsletter for its members, Family Physicians Links, providing a platform to disseminate news, ideas and directions in Family Medicine. The Board of Education remains busy on meeting members' educational demands. It is satisfying to note that the College remains in sound financial condition and our reserves are now larger than ever before.

In the beginning of the year, four staff were simultaneously dismissed because of poor performance. This unexpected event caused difficulties in the operations of the Secretariat but thanks to the great efforts and resourcefulness of the remaining staff, very little disruption took place and with the hiring of new staff, calm and normality soon prevailed.

Three members of the College have been honoured with Honorary Fellowships. Dr. Donald Li has been made Honorary Fellow of the Hong Kong College of Dental Surgeons for his work in promoting family dentistry; Dr. Stephen Foo, Immediate Past President, and Dr. Natalis Yuen, a Past President and a Censor of the College, Honorary Fellows of the Royal Australian College of General Practitioners, for their work in promoting Family Medicine / General Practice. While these Honorary Fellowships remain testaments to their own achievements, they are also recognition of the stature of the College both here and abroad.

The first College diploma course in Family Medicine was completed smoothly and all students passed the final assessment. Furthermore, the diploma has been granted quotability by the Medical Council thus giving recognition to the quality of this course. Thanks are due to all those who worked in making this venture a success especially those in the Board of Education.

On the international front, the College won the bid to host the 2009 WONCA Asia-Pacific Regional Conference. While the event is still some years away, preparations are already underway to plan work organisation, promotional strategies and content. This is another opportunity for members to show support and involvement. Discussions continued with the Royal College of General Practitioners to introduce the diploma MRCGP International into Hong Kong with the College Conjoint Fellowship Examination being the assessment tool. In the year, the College met a number of overseas visitors in Family Medicine, notably the HKU Visiting Professor in Family Medicine, Professor Doris Young from Melbourne, Australia, herself being originally from Hong Kong.

In the year the College conducted a Family Medicine training course in Shenzhen for Chinese family doctors through the initiative of Dr. Donald Li. This course provided a valuable opportunity for doctors on both sides of the border to discuss the principles of Family Medicine and to understand the differences of their practices.

It remains for me to thank the Secretariat for their hard work and focus in what was indeed a very busy year for the College.

CHAIRMAN'S MESSAGE

"What now comes true was once only dreamt" - The College successfully gave birth to her first batch of graduates from the Diploma of Family Medicine in June 2004. The course was first launched in 2003. This is a one-year part-time course with Distance Learning Theoretical modules and Local Practical modules. The objectives are to provide an alternative pathway for primary care doctors and young medical graduates to learn good quality family medicine and to improve their skills in general practice. The Distance Learning modules were offered through the support of The Department of General Practice, Monash University. The Clinical modules were organized by the Board and consisted of structured seminars, practical workshops and bedside clinical attachments. The aim was to provide a practical, structured and yet flexible mode of teaching which could ultimately enhance the attitude, knowledge and skills of the attendants. Thirty-seven doctors enrolled in the Course and thirty-four of them graduated. The Board was proud to

announce that the Medical Council of Hong Kong granted quotability almost immediately to this Diploma in July 2004. This new award Diploma in Family Medicine, The Hong Kong College of Family Physicians, DFM (HKCFP), was indeed a major accomplishment of the Board and marked another important milestone of the College.

In addition to this, the Board, as in the past years, organized a variety of educational activities for our members.

Annual Updates on different specialties including Cardiology, ENT, Nephrology, Neurology, Ophthalmology, Palliative Care, Psychiatry, and Surgery were organized regularly throughout the whole year. A novel series of Traditional Chinese Medicine (TCM) Update with seven successive sessions was organized. The Board endeavoured to tailor these updates to meet the learning needs of our members. The attendances were encouraging. The Board would like to thank all those members who returned feedback questionnaires. Their comments were valuable for improvement and planning of future topics. In addition, some weekday luncheon lectures were organized. The submission of CPD logs of these lectures and Updates by industrious members enabled them to gain additional CPD points. This year, the Board started to videotape some of these important Updates and lectures and keep a library of them for videocassette viewing sessions and for members' access.

The Assessment Enhancement Course (AEC) for helping members to prepare for the Conjoint Fellowship Examination was organized annually. This was the fifth year of the course. The course was welcomed by the attendants and their evaluations of the course were most gratifying. Many attendants of the Course who passed the Fellowship Examination and became new Fellows contributed back enthusiastically and voluntarily as new tutors to help the younger generations. This coherent spirit and support among colleagues were rewarding to all of us.

Annual Refresher Course, our major year-end event, was well accepted by members. Again, thanks to the active feedbacks from members; valuable opinion and suggestions were collected and relevant changes implemented.

Clinical Hospital Attachments were organized in ENT, Geriatrics, Infectious Disease and Dermatology. These attachments offered precious opportunities for members to learn and update their clinical skills but were among those of the most difficult educational activities to organize because they depended heavily on the resources and support from hospital colleagues.

Although the Diploma Course in Medical Ultrasound was temporarily suspended this year, the Board with support from the Council, invited the ultrasound teachers of Guangzhou Hospital (廣東省中醫院-廣州中醫藥大學第二附屬醫院) for a visit and meeting in Hong Kong. Dr Yang Zhi Min, the deputy superintendent of Guangzhou Hospital, led a team of nine doctors and visited us in February 2004. The meeting offered a precious opportunity for exchange of views and enhancement of co-operation. The Board contemplated to organize practical bedside ultrasound courses in Guangzhou Hospital in the near future.

Thanks to the unfailing support of Dr. Cheng Chun Ho and Dr Pun Chiu On, our Cardiologist friends and teachers, CPR training workshops and examinations were organized as usual. Instructor workshops for up-keeping standards and recruiting new instructors were also organized. This year we included a new topic on infant and child CPR which was delivered by our Paediatrician colleagues.

There were 62 Small Discussion Groups registered with the Board. As in last year some groups actively participated in writing up local management protocols of common diseases and earned extra CPD credits.

Videocassette viewing sessions were arranged for members as in the past years. As mentioned earlier, the Board planned to utilize videotaped seminars/updates as additional topics.

Community-wise, the Board collaborated with The Hong Kong Thoracic Society, American College of Chest Physician (HK and Macau Chapter) and Hong Kong Lung Foundation Ltd. to increase awareness and early detection of Chronic Obstructive Pulmonary Disease (COPD) among general public and health care professionals.

Similar to previous years, abstracts submitted by speakers in luncheon lectures and seminars could be accessed at the Board of Education Bulletin in the College website. This provided an alternate route of learning for members who could not attend these meetings.

I was indebted to all my colleagues in the Board for their efforts, inventiveness and dedication in helping to organize the various educational activities. I was grateful to Dr. Donald Li for his great support in organizing the Diploma in Family Medicine and the Ultrasound Meeting with Quangzhou Hospital. I would also like to thank Ms. Jessica Cheng, our Administrative Manager (Education), and the secretarial staff for their efficiency and hard work. In addition, we had to thank all sister Colleges, Hospital Departments, Department of Health, Universities and Pharmaceutical Sponsors for supporting our various educational activities.

THE SEVENTEENTH CONJOINT FHKCFP/FACGP EXAMINATION

The 17th Conjoint Examination marked the introduction of the New Format Examination, which our college started to plan a few years ago. The new examination was started some years back in Australia, and seen as a more valid examination. In 2003 the new MCQ and KFP (Key Features Problems) were the two segments introduced, and the combined new format OSCE clinical examination will be started in 2004.

Preparatory work has been very challenging especially for the KFPs which were brand-new to our examiners. In addition to individual segment meetings and practice sessions, examiners' training camps were held on September 7, 2003 (Sunday) at Our Lady of Maryknoll Hospital and September 18, 2003 (Sunday) at Old College Premises during which marking was standardized and the examination materials were practised and thoroughly discussed.

The actual examination took place on the following dates:

MEQ	September 20, 2003 (Saturday)	HKAM Jockey Club Bldg.
KFP	September 20, 2003 (Saturday)	HKAM Jockey Club Bldg.
MCQ	September 21, 2003 (Sunday)	HKAM Jockey Club Bldg.
CI	September 21, 2003 (Sunday)	HKAM Jockey Club Bldg.
DI / PE (Short)	October 19, 2003 (Sunday)	Our Lady of Maryknoll Hospital
ORAL	October 22, 2003 (Wednesday)	Ngau Tau Kok Polyclinic
	October 23, 2003 (Thursday)	Ngau Tau Kok Polyclinic
MI / PE (Long)	October 26, 2003 (Sunday)	Our Lady of Maryknoll Hospital

The visiting examiners were Dr. Beth Jane and Dr. Morton Rawlin from RACGP and Dr. Alistair Howitt from RCGP. They contributed many constructive ideas and observed the clinical segments of the examination. There were 153 candidates applied for the examination, one withdrew from the examination and four did not show up in examination. Thus a total of 148 candidates sat the examination, including 59 vocational trainees taking the written segments under new format, one only taking the written segments and 62 taking the clinical segments under old format.

The successful candidates were:

Changes in the BVTS

The Board of Vocational Training and Standards has had a very busy year with a significant increase in the number of vocational trainees, training practices and clinical supervisors.

Hospital Training Posts

This year, the number of trainees in Basic Training continued to have a significant increase as our Board had accepted a number of new trainees from Hospital Authority to join our Basic Vocational Training Programme. The number of trainees in Higher Vocational Training in Family Medicine also continued to increase. The list of our trainees in 2003/2004 is listed in Appendix A. The list of our current Honorary Clinical Supervisors in Family Medicine is listed in Appendix B.

Additional Training

Some additional trainees had started their training programme and the progress was satisfactory. Some had already finished their required additional training and had successfully passed the Exit Examination of our College.

Output

Congratulations to our trainees: Dr. Au Yuk Lan, Dr. Chan Fu Leung, Dr. Chan Laam, Dr. Chan Pang Fai, Dr. Chan Yau Wa, Dr. Cheung Man Kuen, Dr. Chong Man Yuk, Dr. Fu Sau Nga, Dr. Hui Ming Tung, Eric, Dr. Ko Wai Kit, Dr. Lai Tat Chau, Douglas, Dr. Lai Wing Yiu, Stephen, Dr. Lam King Hei, Stanley, Dr. Lam Tak Hung, Dr. Lau Kin Sang, Kinson, Dr. Lau Wai Ling, Dr. Law Tung Chi, Dr. Lee Wang Yat, Dr. Li Keung, Dr. Lin Chor Keung, Calvin, Dr. Lo Yuen Chung, Yvonne, Dr. Ng Mei Yee, Dr. Ngai Ho Yin, Allen, Dr. Pang Siu Leung, Dr. Suen Hung Yan, Alex, Dr. Tam Ka Wae, Tammy, Dr. Tse Wing Man, Dr. Tsim Koon Lan, Kathy, Dr. Tsoi Lai To, Sammy, Dr. Tsui Pun Nang, Dr. Wong Chi Ho, Keith, Dr. Wong Hung Yung, Dr. Wong Kwai Wing, Dr. Wong Mong Sze, Marcus, Dr. Yau Chi Hong, Dr. Yu Wing Hung and Dr. Yuen Shiu Man for passing the HKCFP/RACGP Conjoint Examination in 2003 and for being elected Fellows of the Hong Kong College of Family Physicians and the Royal Australian College of General Practitioners.

Ogle, Wilfred C.G. Peh, Grace Tang, C.A. van Hasselt, Jean Woo, Wong Tze Wai, C.Y. Yeung and R.T.T. Young have continued as our Editorial Advisers and given their expert input.

Statistical Consultants:

Professor Joseph Lau and Dr. Ian Lauder have continued to offer their expert help as our statistical consultants.

Business Manager:

Dr. Raymond C H Lo has continued to be our Business Manager.

Administrative Executive :

Ms Teresa Lee helped with the general administration of the Editorial Board.

As in the past years, the Editorial Board strived to improve on the quality of the Journal. Many a times, we had to ask the authors to revise their submissions so as to enhance the readability of the already good quality manuscripts. Thanks to all the team members and advisers who have made this important task as smooth as it has been. We must also thank all the sponsors, subscribers, authors and reviewers who have given the journal their greatest support over the year. We look forward to continue improving the journal.

This year, despite the poor economic environment, the College still managed to secure sponsorship for many of its activities. Educational events organized by the Board of Education such as Annual Medical Updates, Luncheon Lectures and Annual Refresher Course were adequately sponsored. Our Journal, the Hong Kong Practitioner, was growing in popularity and remained one of the mostly widely circulated medical journals locally. Needless to say, this was one of the reasons for continuous subscriptions of advertisements by the companies. Our new Family Physicians Links obtained AON Hong Kong Limited as its first sponsor in advertisements. Our Annual General Meeting was held for the first time at Miramar Hotel and was generously sponsored by Servier Hong Kong Limited. Lastly, the demands for mailing and circulating services by members and other institutions were still adequate.

On behalf of the College, I would like to express my gratitude to all of the following companies for their generous sponsorship :

Abbott Laboratories Ltd
Alcon Hong Kong Limited
Aon Hong Kong Limited
AstraZeneca Hong Kong Limited
Boehringer Ingelheim (HK) Ltd
Eli Lilly Asia, Inc.
Fujisawa HK Ltd
GlaxoSmithKline
IDS (Hong Kong) Limited
Johnson & Johnson (Hong Kong) Ltd
Lundbeck Export A/S
Mayfair Medical Supplies Ltd

Merck Sharp & Dohme (Asia) Ltd
Novartis Pharmaceuticals (HK) Ltd
Organon (HK) Ltd
Pfizer Corporation Hong Kong Limited
Roche Hong Kong Limited
Sanofi Synthelabo HK Limited

WONCA 2009 Host Organising Committee

Chairman : Dr. Ip Kit Kuen

Members : Dr. Chan Hung Chiu

Dr. Luk Wan
Dr. Eileen Y. Y. Tse
Dr. Wong Hung Wai

The College has successfully bid for holding the WONCA Asia-Pacific Conference in 2009. WONCA is the world organisation of family doctors. The Asia-Pacific Conference is held every year with the exception of the year when the World Conference is convened. The World Conference is organised every three years.

This is the third time we hold the Wonca Conferences. In 1987, the college hosted the Asia-Pacific Conference. In 1995, we hosted the World Conference. Under the chairmanship of Dr. John T. N. Chung, the last conference was a big success. It was attended by over two thousand participants.

The theme of the WONCA 2009 Asia-Pacific Conference is 'Building Bridges'. In the past decade, Hong Kong has built many famous bridges linking outlying islands as well as the route to the mainland. The theme of building bridges will highlight the similar importance of family doctors being the liaison persons of various medical or paramedical teams.

The College is at the stage of preliminary planning. We have provisionally booked the Hong Kong Convention and Exhibition Centre in June 2009. This year we sent a team of representatives to the WONCA World Conference at Orlando to promote our conference in 2009.

The Host Organising Committee anticipates a huge volume of organizing work in the coming years. I would like to appeal to all our members to take an active role in planning as well as participating in order to make this event successful.

COMPUTER COMMITTEE

Chairman: Dr. Steven Y K HO

Members: Dr. Chow Shun Wai Dr. Tsui Hing Sing
Dr. Amy W Y Leung Dr. Donald K T Li (Ex-officio)
Dr. Lam King Hei, Stanley Dr. Raymond C H Lo (Ex-officio)
Dr. Lau Tai Wai Dr. Wong Hung Wai (Ex-officio)

Dr. Pau Wai Man

Secretary: Ms. Irene N W Tse

In the last 12 months the major work of the Computer Committee (CC) has been to conduct review with the aim to revamp the Membership Management System (MMS) which was developed some 4 years ago using programming tools that might not have been versatile nor efficient enough for today's use.

Some co-relating problems associated with the current MMS and College development have been identified, including the (1) electronic data-file inter-exchange / transportation, (2) commissioning of a new branch office at Wanchai and (3) staff movements. Taking on board during the review also included the understanding of logistics of handling the variety of timely changing status / subject attributes / personal data arising from ongoing activities of various functions of Boards and Committees of College.

Early in 2004 Council resolved to consider plans to re-develop the MMS. Interested vendors participated to discuss users' requirements with all Boards Chairmen, in the presence of executives. A prudent approach was adopted.

So far, the current MMS is still handling basic functions out of its core data-base. In future, there is the need to upgrade / re-develop a new MMS to (a) run on SQL servers, (b) synchronize with HK Academy of Medicine / HK Medical Council, (c) enhance usage of internet technology and (d) add more web-site enabled functions. Replacement of certain hardware should also be considered

COUNCIL MEMBER-ON-DUTY (CMOD) SYSTEM

Coordinator: Dr. CHAN Hung Chiu

Executive Manager: Ms. Kris LAM

Senior Adm. Executive: Ms. Pinky LEUNG

From July 2003 to June 2004, we have altogether received 9 inquiries from our members concerning matters related to our College and to Family Medicine. (Table 1) The most frequently asked area (4 out of 9 inquiries) was about problems arising from the interaction with our patients. All the inquiries, comments and suggestions from our members were handled with great attention. Some of them were directed to the respective Board or Committee for any necessary follow-up actions. All those raised ideas and comments were very useful and constructive to the College, not only for further improvements but also for the future developments of our College policies.

The feedback statistics from the users of the CMOD System are now appended. (Table 2) Overall this form of communication has generally been well received. As for members' information, some frequently asked questions (FAQ's) will be published in the College Newsletter, Family Physicians Links, from time to time.

I would like to take this opportunity to thank all those members for their invaluable comments and support. I would like to thank all our Council members who have contributed in communicating with the College members and answering their inquiries in the past year. I would also like to thank Ms. Kris Lam, our Executive Manager, and Ms. Pinky Leung, our Senior Administrative Executive, for their support and services.

THE HONG KONG COLLEGE OF FAMILY PHYSICIANS

(Table 1)

SUMMARY OF CMOD CASES

Updated in July 2004

Area of Inquiries	No of cases	Case No.	Action taken by CMOD	Other Referral	Remarks
Regarding the quality of the Surgical Update held on July 2003: the inquirer commented on the content of the lectures, and asked if the lectures were of low quality and 'no update' at all, would CPD points be given by the QA & A Committee?	1	0029/2003	Direct telephone reply	Referral to Chairman of Board of Education, and Chairman of Quality Assurance & Accreditation Committee.	Dr. Raymond Lo contacted the inquirer by phone and agreed to enhance communication with the speakers in future. Regarding learning needs of family doctors attending CME activities Dr. Chan Kwok Wai contacted inquirer by phone and explained the CPD matters in details.
College educational functions are mainly held at the lunch time on weekdays and doctors who are working from nine to five can hardly attend such functions.	1	0030/2003	Direct telephone reply	Referral to Chairman of Board of Education	Dr. Raymond Lo contacted the inquirer by phone. The latter preferred weekend functions so that the inquirer needed not request half day leave to attend weekday functions.
Verbal agreement not honoured by a hostel because HA provide the same service (flu vaccination) to the former without charge	1	0031/2003	Direct telephone reply		Noted by College Council.
Received requests from pregnant woman traveling to HK from Mainland China for medical certificate to extend her stay in HK	1	0032/2003	Direct telephone reply		CMOD explained and advised: 1) a doctor can issue a medical certificate detailing the patient's illness/condition and the medical judgment on the fitness for traveling and/or urgency of treatment needed. 2) to explain to the patient that the medical certificate does not guarantee an extension of the visa. 3) to address the certificate as 'To whom it may concern' rather than to the Director of Immigration Department.
Difficulties in purchasing DPT vaccine from the pharmaceutical distributors	1	0033/2004	Direct telephone reply		Explained the situation was probably temporary. Many colleagues had experienced similar difficulty.
GP provide the service of wearing IUCD has to pay more for the insurance protection	1	0034/2004	Direct telephone reply		CMOD discussed that IUCD could be regarded as some form of O & G procedure where MPS would consider higher premium. The provision of an occurrence-based protection might explain the rationale for higher MPS premium.
Can GP issue a certification to a patient, who had already left hospital, advising that the patient still needed to continue the physiotherapy treatment?	1	0035/2004	Direct telephone reply		CMOD discussed with inquirer and faxed some material on similar topics as published in the official newsletter of HKMA, and further proposed the inquirer to contact duty lawyer of MPS via HKAM (since the inquirer is also member of HKAM) to obtain medical legal advice.
Received complaint from patient's parents because they were told by a doctor of Tuen Mun Hospital that he had prescribed some medicine wrongly	1	0036/2004	Direct telephone reply		CMOD advised the inquirer to contact MPS to report the case, and also talk to the patient's mother to clarify the situation and refuse her anger.
Insurance companies had stopped providing insurance cover for infectious diseases to medical clinics after SARS	1	0037/2004	Direct telephone reply		CMOD suggested to the inquirer a few insurance companies that are willing to take the coverage. The list was published in the following issue of the College Newsletter, FPLinks.

FINANCE COMMITTEE

Chairman : Dr. Chan Hung Chiu

Committee Members : Dr. Donald K T Li (Ex-officio),
Dr. Raymond C H Lo (Ex-officio),
Dr. Wong Hung Wai (Ex-officio),
Dr. John TN Chung (Ex-officio)

Senior Adm. Executive : Ms. Pinky Leung

With careful monitoring by the Finance Committee, the financial situation of the College in 2003 continued to remain sound and healthy. Our accumulated financial reserve kept on growing steadily. There is now a deposit of equivalent of over HK\$15 m in our accounts. As in the past years, our investment strategy remains conservative. Staying away from high-risk investments, our funds are carefully placed, with over HK\$2 m in time deposits, HK\$4.7 m in guaranteed funds and over HK\$2.5 m in US Bonds.

I would like to express my sincere thanks to Dr. Donald Li, our President, Dr. Raymond Lo, our Vice President (General Affairs), Dr. Wong Hung Wai, our Vice President (Education & Examinations) & Business Manager, Dr. John Chung, our Honorary Secretary, and Ms. Pinky Leung, our Senior Administrative Executive, for their continuous support and services. I would also like to thank Mr. C.F. Cheung, our Honorary Auditor, for his professional advice and services.

1st Annual Scientific Meeting

It was the first time that the College co-organised the Annual Scientific Meeting with one of our sister colleges, Hong Kong College of Community Medicine. The meeting was held on 18th April 2004 (Sunday) at the HKAM Jockey Club Building with the theme "Preparing for Public Health Crises". The meeting was well attended by over 160 participants.

We were honoured to have Prof. Sian Griffiths, Co-chairman of HK SARS Expert Committee and President of Faculty of Public Health, Royal Colleges of Physicians, United Kingdom; Prof. Daniel Lucey, Director of Centre for Biologic Counterterrorism & Emerging Diseases, Department of Emergency Medicine, Washington Hospital Centre, United States of America and Dr. Wong Hung Wai, Vice-President (Education and Examination) of the Hong Kong College of Family Physicians to deliver the keynote addresses on this special occasion. The topics of the three keynote addresses were as follows:

Prof. Sian Griffiths	The Role of Family Physicians in Health Protection
Dr. Wong Hung Wai	Preventive Medicine to Safeguard Public Health
Prof. Daniel Lucey	Preparedness not Panic-What have we learned from the Anthrax Attack, Smallpox Vaccination Programme and SARS Outbreak?

There was also a free papers session for local speakers and the meeting was highlighted by an expert forum on Interface between Community Physicians and Family Physicians in Public Health Crisis. We thank the guest speakers Dr. Jackie Spiby, Consultant in Environmental Public Health, Guy's and St. Thomas' Hospital, United Kingdom; Dr. Thomas Tsang, Consultant in Community Medicine, Department of Health; Dr. Liu Shao Haei, Senior Executive Manager (Professional Services), Hospital Authority and Dr. Chan Kwok Wai, Council Member of the Hong Kong College of Family Physicians to share with us their experiences on Public Health Crisis.

Conferment Ceremony

Following the Annual Scientific Meeting, the College co-organised the Fellowship Conferment Ceremony and the 15th Sun Yat Sen Oration with Hong Kong College of Community Medicine on the same day at the Run Run Shaw Hall.

We witnessed and congratulated the conferment of two renowned leaders in the field of Public Health as Honorary Fellowship of the College of Community Medicine. They are Prof. Sian Griffiths and Dr. Sherene Devanesen. The ceremony ended with our special honour of having Prof. Michael Kidd, President, Royal Australian College of General Practitioners delivering the 15th Sun Yat Sen Oration entitled "Quality Family Medicine in a Brave New World".

The ceremony was well received by about 200 guests and participants. There were 37 members conferred for Fellowship of the Hong Kong College of Family Physicians and Fellowship of the Royal Australian College of General Practitioners. They were:

MRCGP (INT) COMMITTEE

Chairman: Dr. Leung Koon Chit
Vice-Chairman : Dr. Wong Hung Wai
Committee Members: Dr. Luk Wan
Dr. Lui Luen Bun, Benny
Dr. Wong Ka Wah

2003-2004 was a year of consolidation and more preparatory work for the Committee. Following the visit of the International Development Advisor (IDA) from RCGP, our Committee has liaised closely with MRCGP (INT) Committee of the Royal College of General Practitioners of UK(RCGP) to work on the feasibility of the project. Our College President and the HKCFP Council have maintained an active and co-operative dialogue with Dr John Howard, Chairman of the MRCGP (INT) Committee of RCGP and have set realistic milestones for the next 3 years. The next step will be a visit of two Examination Development Advisors from RCGP to finalise the details for incorporating the MRCGP(INT) into the existing Conjoint Examination.

NOMINATION COMMITTEE

Chairman: Dr. Chan Kin Ling

Committee Members: Dr. Yiu Yuk Kwan (Chairman, BVTS)
Dr. Lawrence K C Leung (Chairman, Membership Committee)
(resign on 24 September 2004)

Dr. Chan Hung Chiu (Ex-officio)

Senior Administrative Executive: Ms. Pinky Leung (from January 9, 2004)

Administrative Executive: Ms. Mandy Li (up to January 8, 2004)

The main task of the Nomination Committee is to scrutinize applications for nomination to Fellowship of the Hong Kong Academy of Medicine in Family Medicine. It also examines applications for assessment of FHKAM (Family Medicine) equivalent standard according to the regulations laid down by the HKAM Council and our College Council.

Twelve fellowship nominations were submitted by our College and all were approved by the Hong Kong Academy of Medicine in the Year from October 2003 to September 2004.

PUBLIC EDUCATION COMMITTEE:

Chairman : Dr. Ip Kit Kuen
Members : Dr. Donald K.T. Li
Dr. Raymond C. H. Lo
Dr. Wong Hung Wai
Dr. John T. N. Chung
Dr. Chan Hung Chiu
Dr. Chan Kin Ling

Administrative Executive : Ms. Teresa Lee

The committee is responsible for answering enquiries from the public. These enquiries came from newspapers, magazines, and occasionally from television. Council members took turn to answer these calls. Our President would entertain issues concerning the policy of our college.

In July, the public education committee launched a competition of the best educational brochure for promotion of family medicine to general public. At the time of writing this report, we are at the stage of entry collection. The best design would be awarded a cash prize. The college would use the design to promote the discipline and concept of family medicine.

Last year, the committee took part in a number of education events, which were listed at the end of this report. I would like to take this opportunity to thank all those who had offered their assistance in the past year, particularly, to our administrative executive, Ms Teresa Lee.

The following is the list of public education activities:

Continuous Professional Development (CPD) was first introduced as a mandatory requirement for the award of the QA certificates in 2000. The following table is the analysis of the award of QA certificates from the year immediate before (year 1999) to the years after the introduction of CPD (year 2000 to year 2003).

%Awarded QA certificates	College Fellows	College Full Member	College Associate Member
1999	137/176	108/303	70/575
	77.84%	35.64%	12.17%
2000	124/182	92/327	89/624
	68.13%	28.13%	14.26%
2001	147/193	93/320	135/758
	76.16%	29.06%	17.81%
2002	185/230	78/283	166/905
	80.43%	27.56%	18.34%
2003	208/231	64/270	134/970
	90.04%	23.70%	13.81%

Percentage of College Members/Fellows awarded QA certificates

In 2003, 208 fellows, 64 full members and 134 associate members have met the criteria for QA certificates. There was only one HKAM fellow who failed to maintain the HKAM's triennial requirement of 90 credit hours, but he was able to make up the deficit through the remedial QA program.

In order to synchronize with the Hong Kong Medical Council's mandatory CME cycle which will commence in 2005, the present annual format of the QA certificate will be replaced by a new three-year cycle format starting January 1, 2005.

THE HONG KONG COLLEGE OF FAMILY PHYSICIANS

REGULATIONS FOR AWARD OF CERTIFICATE OF QUALITY ASSURANCE

(Academic Year: January 2004 - December 2004)

All Fellows and Members of the Hong Kong College of Family Physicians [HKCFP] (except student & affiliate members) are automatically registered with the Quality Assurance [QA] Programme at the beginning of each academic year. Accreditation will be recorded throughout the year in the form of "Credit points". At the end of the academic year, a Certificate of Quality Assurance [QA certificate] will be awarded ONLY to those Fellows and Members who have satisfied the requirements listed in Section 2 below. The total number of "Credit points" awarded will also be endorsed on the Certificate as recognition of performance in Quality Assurance. Please safe keep your QA certificate, as it is an important document. Any its replacement will cost an administrative charge as determined from time to time by the Council of the College, the charge in year 2004 being HK\$500 per each replacement.

- The Award of the QA Certificate is open to all participants of the QA Programme **Fellows and Members of the HKCFP** who have fulfilled the requirements of the QA Certificate can retain their active status. In addition, **Fellows of the Hong Kong Academy of Medicine (Family Medicine) [FHKAM(FM)]** have to comply with the regulations set by the Hong Kong Academy of Medicine [HKAM], which are summarized under section 3.
- The requirements for the award of the QA Certificate are **30 credit points** within the academic year and also participation in **a minimum of 3 different types of activities** to be eligible for the certificate, subject to the following provisions: -
 - At least 10 credit points** must be obtained from the Continuous Professional Development [CPD] activities (listed in subsections 4.1 to 4.26).
 - At least a combined total of 20 credit points** must be obtained from a combination of the CPD activities (subsections 4.1 to 4.26) and the Continuing Medical Education [CME] activities organized by the HKCFP (subsections 5.1 to 5.8)
 - The CME Programme of the FHKAM(FM) consists of three-yearly CME cycles organized through individual Colleges. All existing FHKAM(FM), including overseas fellows, are required to register with the QA programme of HKCFP at the beginning of each year (January). Accreditation will be recorded throughout the academic year in the form of credit points. Both the annual & total accumulative score within the 3-year cycle will be sent to the Fellows at the end of each academic year. As our College's Assurance programme is structured on a calendar year basis, in order to comply with the 6-month rule laid down by the HKAM, the commencement of the first 3-year QA cycle for new HKAM fellows who are conferred between January 1 to June 30 will be on July 1 of the same year. For new fellows who are conferred between July 1 to December 31, the QA cycle will commence on January of the following academic year. All HKAM(FM) fellows are required to fulfill the following criteria laid down by HKAM:
 - They must attain either a CME or QA certificate from the HKCFP each year.
 - They must attain a minimum of 90 credit points over the 3-year cycle.
 - Teaching medical/postgraduate students and research activities are not recognized by HKAM as CME activities. Fellows who include teaching medical/postgraduate students or research activities (listed under items 4.1, 4.2 and 4.7) as part of their minimum 10 CPD points requirement for the QA certificate need to get the corresponding number of extra CME/CPD points from other categories to cover up. For example, if you get 20 CME points, 5 CPD points from teaching medical students (item 4.1) and 5 CPD points from any activities from items 4.3 - 4.26 (except item 4.7), you have to get extra 5 CME/CPD points (from items 4.3 to 6.7 except item 4.7) because the 5 CPD points from 4.1 would NOT be counted as CME activities under the HKAM guidelines.
 - In order to fit into the new practising certificate requirements of the Hong Kong Medical Council, which will come into force on 1st January 2005, all the present three-yearly CME cycles for HKAM fellows will end prorata on 31st December 2004. A new three-yearly CME cycle will commence on 1st January 2005.

- 4.26 Up to 10 points may be awarded upon submission of a completed Portfolio of the Self Learning Plan. The protocol is available at the College Web Site or from the College Secretariat.

(5) Continuing Medical Education (CME) with automatic computer recording

- 5.1 One credit point may be awarded for each correct set of answers (with score over 50%) to the MCQs provided at College educational activities or enclosed in the College Journal, the Hong Kong Practitioner. Only answers returned to the College within the specified time will be assessed.
- 5.2 One credit point may be awarded for attending each video session organized by our College.
- 5.3 Up to 2 credit points may be awarded for attending each afternoon or evening lecture or for attending each educational meeting and seminar organized by our College.
- 5.4 Up to 4 credit points may be awarded for attending each half-day workshop or symposium organized by our College.

- 5.5 Up to 2 credit points may be awarded for attending each seminar and up to 4 credit points may be awarded for each Sunday workshop/symposium at the Annual Refresher Course organized by our College.
- 5.6 One credit point may be awarded for participation in small discussion group that is pre-approved by our College's Board of Education.
- 5.7 Up to 12 credit points may be awarded for satisfactory completion of the full-year HKCFP "Check on CHECK" programme.
- 5.8 Up to 15 points may be awarded for each clinical attachment organized by our College.

(6) Other Educational Activities

Apart from educational functions organized by our College, medical education organized by other institutions and in other forms may be accredited CME points under the following guidelines:

- 6.1 Medical conferences or educational activities organized by other Colleges of the Hong Kong Academy of Medicine may be accredited upon application for prior approval by the organizing institution. The number of credit points awarded will be decided by the QA & A Committee with a maximum of 10 points per activity. Only activities with participation records will be accredited. The computer will automatically update pre-approved functions.
- 6.2 Seminars/workshops/symposia/conferences/postgraduate courses in Family Medicine organized by other institutions may also be accredited upon application for prior approval by the organizing institution. The number of credit points awarded will be decided by the QA & A Committee with a maximum of 10 points per function. Only functions with attendance records will be accredited. The computer will automatically update pre-approved functions.
- 6.3 Up to 10 credit points may be awarded for satisfactory completion of the electronic MCQs on Internet web sites that are pre-approved by the Board of Education at 1 credit point for each correctly completed topic. Pre-approved functions will be automatically updated by the computer.
- 6.4 Accreditation may be awarded for attending overseas symposia/conferences etc. organized by sister WONCA Colleges. The number of credit points awarded will be decided by the QA & A Committee only after individual application with a maximum of 10 points per meeting.
- 6.5 Accreditation may be awarded for attending postgraduate courses designed for general practitioners, e.g. Diploma courses and Master courses in Family Medicine. Award is normally given on completion of the course, unless the course lasts for more than 12 months and is taken and graded in sub-units. Photocopies of transcripts must be submitted with the application. The number of credit points awarded will be decided by the QA & A Committee only after individual application.
- 6.6 Accreditation may be awarded for completion of Continuing Medical Education Programme of other Colleges of General Practice/Family Medicine. The number of credit points awarded will be decided by the QA & A Committee only after individual application.
- 6.7 Accreditation may be awarded for participating in health education for the public e.g. talking to school children as a physician, writing newspaper articles or appearing on television giving health education. The number of credit points awarded will be decided by the QA & A Committee only after individual application with a maximum of 2 points per activity.

For **Educational Activities** under items 4.7, 4.8, 4.12, 4.13 and items 6.4 to 6.7, participants have to apply in writing with the appropriate fees to the QA & A Committee at the end of the academic year and before January 15th of the following year if they want to obtain accreditation for their additional educational activities. It is the responsibility of the applicants to file the application forms for special consideration with details (photocopies of events, transcripts or published articles, etc.) and written proof of attendance issued by the organizing institutions in support of the application. The QA & A have the final right in deciding the number of credits awarded for each activity.

THE HONG KONG COLLEGE OF FAMILY PHYSICIANS

REGULATIONS FOR AWARD OF CONTINUING MEDICAL EDUCATION CERTIFICATE

(Academic Year: January 2004 - December 2004)

All Fellows and Members of the Hong Kong College of Family Physicians (HKCFP) (except student & affiliate members) are automatically registered with the Quality Assurance (QA) Programme at the beginning of each academic year. Accreditation will be recorded throughout the year in the form of "Credit points". At the end of the academic year, summation of the total score will be recorded in the Fellows and Members' record.

Regulations for award of the Continuing Medical Education (CME) certificate are the same as the **"Regulations for award of Quality Assurance Certificate"**. Fellows and Members who have been awarded not less than 30 credit points, but without or less than 10 Continuous Professional Development (CPD) points under the **"Regulations for award of the Quality Assurance Certificate"**, will be awarded a CME certificate. Please safe keep your CME certificate, as it is an important document. Any its replacement will cost an administrative charge as determined from time to time by the Council of the College, the current charge in year 2004 being HK\$500 per each replacement.

Fellows and Members of the HKCFP who have fulfilled the requirements of the CME Certificate of can also retain their active status. **HKAM(FM) fellows** with the CME Certificate can also meet the CME requirements of the HKAM provided that the other criteria as laid down on section 3 of the **"Regulations for award of the Quality Assurance Certificate"** are also observed.

However, **Fellows and Members of HKCFP** are strongly advised to work for the QA certificates, which will be needed when upgrading membership or fellowship status, in applying for reciprocal QA arrangement with the Royal Australian College of General Practitioners and in joining some of the Boards and Committees of the College.

The Committee welcomes our new members. Dr. Wong Chi Wai William and Dr. Wong Yeung Shan Samuel.

Six submissions were received for the Annual Research Award 2003 and the selection panel consisted of 2 internal assessors and 1 external assessor. The winning project was "Impact of chronic diseases on health services and quality of life of a Chinese population" by Dr. Cindy LK Lam, Dr. Ian J Lauder, and Dr. Lam Tai-Pong.

Finally, I wish to thank all who have provided assistance to the Research Committee and look forward to closer collaborations in the future.

Honorary Treasurer

Honorary Treasurer : Dr. Chan Hung Chiu

Senior Adm. Executive : Ms. Pinky Leung

The financial situation of our College remains stable for the year 2003-2004. We now have over HK\$15 m in reserve.

In 2003, our College kept over HK\$3.7 m guaranteed fund in the accounts of HSBC; US\$350,000 Bonds deposit, over HK\$1 m fixed deposit and HK\$1 m guaranteed fund in the accounts of Bank of East Asia; and over HK\$1 m time deposit in the accounts of Chekiang First Bank Ltd.

Our income in 2003 (HK\$7.6 m) showed an increase of 18.7% compared to the previous year. One new source of income of our College this year (HK\$0.9 m) was from the course of Diploma of Family Medicine (DFM). Our income from Board of Examination & Assessment (HK\$2.1 m) was over 34.1% greater, from Membership Committee (HK\$1.3 m) was slightly over 2.2% greater, from the Board of Vocational Training and Standards (HK\$0.9 m) was over 8.8% greater, and from the Editorial Board (HK\$0.7 m) was 17.5% greater than in 2002. While the increase in income from the training and examination activities represents the steady growth in members (including the Hospital Authority trainees) involving in our training activities and Fellowship examinations activities, the slight increase in income from the membership represents a slow growth of our membership. On the other hand, income from Board of Education (HK\$1 m) was 31.4% less, and from the Finance Committee (HK\$0.2 m) was over 9.9% less, than in 2002. The reasons are the continual decline in donations and sponsorships from various pharmaceutical companies, and the low dividends and interests generated from our investments respectively.

Our total expenditure in 2003 (HK\$6.1 m), on the other hand, was over 7.8% higher than in 2002. Our total sponsorships last year, including WONCA Conference in Beijing (HK\$71,608), WONCA Conference in Malta (HK\$15,971), Scientific Conference in Hobart (HK\$27,300), and Family Medicine Prizes to CUHK (HK\$5,000), amounted to almost HK\$0.12 m, over 13.7% less than in 2002. The three extra expenditure items last year, namely, the Wanchai Office set-up charge (HK\$0.18 m), the preparatory work for MRCGP (INT) (HK\$71,223), and the DFM course expenditure (HK\$0.63 m), amounted to HK\$0.88 m, over 14.3% of our total expenditure. The expenditure to maintain our College secretariat (HK\$2.4 m), to pay for our various College functions (HK\$0.1 m), and management fees (HK\$0.2 m), remained substantial (HK\$2.7 m), being 14.2% higher than in 2002.

Our total operating surplus in 2003 was HK\$1.43 m, with an increase of HK\$0.75 m (over 109%) as compared to 2002.

I would like to thank Ms. Pinky Leung, our Senior Administrative Executive, for her hard work in taking care of our accounts.

On behalf of the Council

Chairman
HONG KONG, 27 October 2004

**REPORT OF THE AUDITOR TO THE MEMBERS OF
THE HONG KONG COLLEGE OF FAMILY PHYSICIANS
(Limited by guarantee)**

I have audited the financial statements set out on pages 71 to 76 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

Respective responsibilities of the Council and Auditor

The Companies Ordinance requires the Council to prepare financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is my responsibility to form an independent opinion, based on my audit, on those statements and to report my opinion to you.

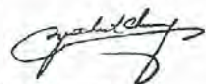

Basis of opinion

I conducted my audit in accordance with Statements of Auditing Standards issued by the Hong Kong Institute of Certified Public Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Council in the preparation of the financial statements, and of whether the accounting policies are appropriate to the College's circumstances, consistently applied and adequately disclosed.

I planned and performed my audit so as to obtain all the information and explanations which I considered necessary in order to provide me with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming my opinion I also evaluated the overall adequacy of the presentation of information in the financial statements. I believe that my audit provides a reasonable basis for my opinion.

Opinion

In my opinion, the financial statements give a true and fair view, in all material respects, of the state of affairs of the College at 31 March 2004 and of its results for the year then ended and have been properly prepared in accordance with the Hong Kong Companies Ordinance.

NOTES TO THE FINANCIAL STATEMENTS

1 ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS

In the current year, the company has adopted, for the first time, the following Hong Kong Financial Reporting Standard ("HKFRS") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). The term of HKFRS is inclusive of Statements of Standard Accounting Practice ("SSAPs") and Interpretations approved by the HKICPA.

Income taxes

In the current year, the company has adopted SSAP12 (Revised) "Income Taxes". The principal effect of the implementation of SSAP12 (Revised) is in relation to deferred tax. SSAP12 (Revised) requires the adoption of a balance sheet liability method, whereby deferred tax is recognised in respect of all temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, with limited exceptions. In the absence of any specific transitional requirements in SSAP12 (Revised), the new accounting policy has been applied retrospectively. Comparative amounts for 2003 have been restated accordingly. Opening accumulated profits at 1 April 2003 have been reduced by HK\$249,568 which is the accumulative effect of the adoption of the standard on the results for periods prior to 2003. The effect of the adoption is a charge to income taxes in the current year of HK\$72,864 (2003: HK\$59,905).

2 LEGAL STATUS

The College is a company limited by guarantee and not having a share capital. The liability of each of its members, in the event of its being wound up while he is a member, or within one year after he ceased to be a member for payment of the debts and liabilities of the College contracted before he ceases to be a member, and costs, charges and expenses of winding up, and for the adjustment of the rights of the contributories among themselves, is limited to an amount not exceeding HK\$10.

3 SIGNIFICANT ACCOUNTING POLICIES

(a) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the fixed assets have been put into operation, such as repairs and maintenance costs, is normally charged to the income statement in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the asset, the expenditure is capitalised as an additional cost of the asset.

The gain or loss on disposal or retirement of an asset recognised in the income statement is the difference between the sales proceeds and the carrying amount of the relevant asset.

Depreciation is calculated on the straight line method at the following rates to write off the costs of the assets over their estimated useful lives.

Furniture, fixtures and equipment	15% p.a.
-----------------------------------	----------

(b) Related company

A related company is a company in which one or more of the directors of the company have a beneficial interest or is in a position to exercise significant influence over the company.

(c) Revenue recognition

Entrance fees from members are recognised in the financial year of receipt.

Annual subscription fees are recognised on a time proportion basis.

Interest income is recognised on the time proportion basis taking into account the principal outstanding and the effective rate of interest applicable.

(d) Foreign currencies

Transactions in foreign currencies are translated at exchange rates ruling at the transaction dates. Monetary assets and liabilities in foreign currencies at the year end are translated at rates of exchange ruling at the balance sheet date. All exchange differences are dealt with in the income statement.

(e) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income and expense that are taxable or deductible in other years, and it further excludes income statement items that are never taxable and deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill (or negative goodwill) or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

4 TAXATION

Provision for Hong Kong profits tax has been made in the financial statements at 17.5% (2003:16%) of the estimated assessable profits for the year.

The taxation charges is made up as follows:

	HK\$	2003 HK\$
The taxation charge is made up as follows:		
Provision for the year	60,543	4,617
Over provision for previous year	<u>-</u>	<u>(2)</u>
	<u>60,543</u>	<u>4,615</u>
Deferred tax:		
- Current year	43,851	59,905
- Attributable to increase in tax rate	<u>29,013</u>	<u>-</u>
	<u>72,864</u>	<u>59,905</u>
	<u>133,407</u>	<u>64,520</u>
	=====	=====

The taxation on the company's surplus/(deficit) before taxation differs from the theoretical amount that would arise using the taxation rate in Hong Kong for the company as follows:

	16,363	(38,979)
Surplus/(Deficit) before taxation	=====	=====
Tax at the income tax rate of 17.5% (2003 :16%)	2,863	(6,237)

AUDITOR

The financial statements have been audited by Messrs C. F. Cheung who retires and, being eligible, offers himself for re-appointment.

On behalf of the Board

Chairman

HONG KONG, 27 October 2004

**REPORT OF THE AUDITOR TO THE MEMBERS OF
HKCFP EDUCATION LIMITED
(Limited by guarantee)**

I have audited the financial statements set out on pages 79 to 83 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

Respective responsibilities of the Directors and Auditor

The Companies Ordinance requires the Directors to prepare financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is my responsibility to form an independent opinion, based on my audit, on those statements and to report my opinion to you.

Basis of opinion

I conducted my audit in accordance with Statements of Auditing Standards issued by the Hong Kong Institute of Certified Public Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

I planned and performed my audit so as to obtain all the information and explanations which I considered necessary in order to provide me with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming my opinion I also evaluated the overall adequacy of the presentation of information in the financial statements. I believe that my audit provides a reasonable basis for my opinion.

Opinion

In my opinion, the financial statements give a true and fair view, in all material respects, of the state of affairs of the Company at 31 March 2004 and of its results for the year then ended and have been properly prepared in accordance with the Hong Kong Companies Ordinance.

HKCFP EDUCATION LIMITED
(Limited by guarantee)
NOTES TO THE FINANCIAL STATEMENTS

1. LEGAL STATUS

The company is limited by guarantee and without a share capital. The liability of each of its membership in the event of its being wound up while he is a member, or within one year after he ceased to be a member for the payment of the debts and liabilities of the company contracted before he ceases to be a member and of the costs, charges and expenses of winding up the company, and for the adjustment of the rights of the contributories among themselves, is limited to an amount not exceeding HK\$10.

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS

In the current year, the company has adopted, for the first time, the following Hong Kong Financial Reporting Standard ("HKFRS") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). The term of HKFRS is inclusive of Statements of Standard Accounting Practice ("SSAPs") and Interpretations approved by the HKICPA.

Income taxes

In the current year, the company has adopted SSAP12 (Revised) "Income Taxes". The principal effect of the implementation of SSAP12 (Revised) is in relation to deferred tax. SSAP12 (Revised) requires the adoption of a balance sheet liability method, whereby deferred tax is recognised in respect of all temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, with limited exceptions. In the absence of any specific transitional requirements in SSAP12 (Revised), the new accounting policy has been applied retrospectively.

The adoption of the standard had no material effect on the results for the current or prior accounting years. Accordingly, no prior year adjustment has been required.

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Subsidiaries

A subsidiary is a company in which the company, directly or indirectly, controls more than half of the voting power or issued share capital or controls the composition of the board of directors. The company's interest in subsidiaries are stated at cost less provision for permanent diminution in value. Results of the shareholders are accounted for by the company on the basis of dividends received and receivable.

(b) Related companies

A related company is a company in which one or more of the directors has a beneficial interest or is in a position to exercise significant influence over the company.

(c) Revenue recognition

Revenue arising from activities is recognised when the activities are completed.

Management fee income is recognised when management services are rendered.

Interest income is recognised on the time proportion basis taking into account the principal outstanding and the effective rate of interest applicable.

(d) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income and expense that are taxable or deductible in other years, and it further excludes income statement items that are never taxable and deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill (or negative goodwill) or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of any deferred tax asset is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

4. TAXATION

No provision for Hong Kong profits tax has been made in the financial statements as there is no estimated assessable profits for the year (2003:Nil).

At the balance sheet date, the company has unused tax losses of HK\$312,115 (2003:HK\$759,521) available for offset against future profits. No deferred tax assets has been recognised due to the unpredictability of future profit streams. The losses may be carried forward indefinitely.

5. DIRECTORS' REMUNERATION

None of the directors received any remuneration for their services rendered to the company during the year (2003:Nil).

NOTES TO THE FINANCIAL STATEMENTS

1. LEGAL STATUS

The Foundation is a company limited by guarantee and not having a share capital. The liability of each of its members, in the event of its being wound up while he is a member or within one year after he ceased to be a member for payment of the debts and liabilities of the Foundation contracted before he ceases to be a member, and costs, charges and expenses of winding up and for the adjustment of the rights of the contributories among themselves, is limited to an amount not exceeding HK\$50.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investments in securities

Held-to-maturity securities

Investments in dated debt securities which are intended to be held to maturity are stated in the balance sheet at cost adjusted for the amortisation of premiums or discounts arising on acquisition, less any provisions for diminution in value.

The carrying amounts of held-to-maturity securities are reviewed as at the balance sheet date in order to assess the credit risk and whether the carrying amounts are expected to be recovered. Provisions are made when carrying amounts are not expected to be recovered and are recognised as an expense in the income statement.

Other investments in securities

Other investments in securities are stated in the balance sheet at amount less any provision for permanent diminution in value.

(b) Related company

A related company is a company in which one or more of the directors of the company have a beneficial interest or is in a position to exercise significant influence over the company.

(c) Revenue recognition

Donation received is recognised on receipt basis.

Interest income is recognised on the time proportion basis taking into account the principal outstanding and the effective rate of interest applicable.

(d) Foreign currencies

Transactions in foreign currencies are translated at exchange rates ruling at the transaction dates. Monetary assets and liabilities in foreign currencies at the year end are translated at rates of exchange ruling at the balance sheet date. All exchange differences are dealt with in the income statement.

3. TAXATION

No provision for Hong Kong profits tax has been made in the financial statements as the Foundation is exempt from tax under Section 88 of the Inland Revenue Ordinance.

HKCFP HOLDINGS AND DEVELOPMENT LIMITED

NOTES TO THE FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the assets have been put into operation, such as repairs and maintenance costs, is normally charged to the income statement in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the asset, the expenditure is capitalised as an additional cost of the asset.

The gain or loss on disposal or retirement of an asset recognised in the income statement is the difference between the sales proceeds and the carrying amount of the relevant asset.

Depreciation is calculated on the straight line basis at the following rates to write off the costs of the assets over their estimated useful lives :

Furniture, fixture and equipment	15% p.a.
Leasehold improvement	15% p.a.

(b) Turnover

Turnover represents the course fee received.

(c) Revenue recognition

Revenue arising from professional courses is recognised when received.

Interest income is recognised on the time proportion basis taking into account the principal outstanding and the effective rate of interest applicable.

(d) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income and expense that are taxable or deductible in other years, and it further excludes income statement items that are never taxable and deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill (or negative goodwill) or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

2. TAXATION

No provision for Hong Kong profits tax has been made in the financial statements as there is no estimated assessable profits for the period.
