

Advanced Primary Care Life Support (APCLS) Training and Examination Workshop 2023

As required by the Royal Australian College of General Practitioners (RACGP), an adequate CPR training course needs to have advance components on airway management, neck support and automated external defibrillation (AED) on top of basic life support. In order to align with our Sister College (RACGP) and to achieve reciprocal recognition in Conjoint Fellowship Examination and Quality Assurance Certificate, the CPR Subcommittee of the Board of Education is pleased to announce that an enhanced CPR course, the Advanced Primary Care Life Support (APCLS) has been launched since 2017.

APCLS course materials have been endorsed by HKCFP Council in 2015 and the Resuscitation Council of Hong Kong (RCHK) in 2016. The course aims to widen the scope of our existing CPR training course by adding several important elements: use of automated external defibrillator (AED), use of airways adjuncts and dealing with initial trauma care through use of neck support.

Tentatively, 2 APCLS Training and Examination Workshops will be held on 2023 **(19 March & 16 April 2023)**.

As no one is guaranteed to pass in the first attempt, members who plan to sit for the 2023 Conjoint Examination are strongly advised to register for our APCLS session. Members are reminded that a valid HKCFP APCLS Certificate is a pre-requisite for enrolment of the Conjoint Examination. Members who plan to sit for the 2023 Conjoint Examination are also reminded to check the validity of their HKCFP APCLS Certificate to make sure that it is valid at the time of application and also at the time Clinical Examination. HKCFP APCLS certificates are valid for 2 years.

Please note the announcement would further be made in case there is a change of schedule.
